A rare and impressive franking during the four month period under 'Mosquera' rates. Cert. Moorhouse (2012). *Note: On August 28, 1861 Tomas Cipriano de Mosquera altered the existing postal rates by memorandum. He ordered that the internal Colombian postal rates of April 1846 be re-introduced, namely 10 centavos for an inter-state letter and 15 centavos from one state to another. The Dr. HUGO GOEGGEL Collection (Part 3)
Colombian Air Mail 1919-1930

William Knox Martin Experimental Flight 1919 from Barranquilla to Puerto Colombia

The 1917 current 2 centavos carmine-rose was overprinted in 10 definable types horizontally, the sheet being cut into strips prior to sale, thus vertical multiples and blocks cannot exist. Eugenio Gebauer and Jairo Londoño de Tamayo believed there to be 200 examples printed, Dr. Hugo Goeggel & Carlos Valenzuela project a total of 300 examples printed. There were 160 letters carried on the First Flight on June 18, 1919, the mail being dropped at Puerto Colombia and the plane returning to Barranquilla without test landing. Either mint or used, these stamps represent some of the great rarities of Airmail philately.
