564	5 soldi red in type I, the nearly **complete full sheet of 59 stamps and four St. Andrew's crosses** (just one stamp missing at the bottom right corner), an extremely fine and fresh sheet with vivid colour, exceptionally well centered and embossed, full original gum, just four hinges added for perforation stabilization. **A unique item** originating from the Imperial postal museum, still placed in the original frame and mounting with "K.K. POST-MUSEUM J. No 5064" description on it, situated in the corresponding container. It is known and was first described in the literature when Ing. Edwin Müller used it 1927 in his monograph 'Die Postmarken von Österreich' on p. 96 as the authorative example to explain the sheet organization of the 1858 issue, especially the positioning of the St. Andrew's crosses. It elucidates that the sheet organization of the 1858 Neukreuzer ö W. / Soldi issue simply followed that of the 1850 Kreuzer C.M. / Centesimi issue in spite of the fact that this sheet organization was totally obsolete as the new Gulden equals to 100 Kreuzer ö W. followed the decimal system while the old pre-1858 Gulden equaling to 60 Kreuzer C.M. did not. Beside this sheet there exists only one cover with all four St. Andrew's crosses. There is no other multiple of nearly that size existing, a sensational quality and provenance, a museum quality item for the connoisseur of philately of classical Austria and Lombardo-Veneto. Cert. Ferchenbauer (2016) Ferchenbauer 9/Ia = LP.	25b	*/**	**130'000**	*(€ 117'000)*

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

1461	1855: Fieldpost entire written in 1855 in Neppendorf, a village being today part of Hermannstadt/Sibiu in Transylvania and sent to Cles, Tyrolia, franked with Austrian 1850/54 3 kr. red and 6 kr. brown, fresh colour and overall fair to large margins all round, each stamp tied by "FELDPOST No. 4 27/6" cds in black (Müller 3442a = 900 points; Tchilinghirian fig. 729), reverse with Vienna and Trient transit cds's (1/7). The 3 kr. - stamp touched at base and with fold, but a charming and interesting item. This Fieldpost no. 4 datestamp was issued for a military unit which should have taken part in the occupation of the Principalities during the Crimean War, but this cover proves information given in the literature (Clement, Tchilinghirian) that it remained in Hermannstadt extending the known time range from May to June 1855. Even at that late time point, the sender writes to his mother to direct any letters further on to Hermannstadt. The sender seems to be Julius Aloys Karl Hubert zu Spaur und Flavon, Earl of Spaur und Flavon (1829-1907), the addressee was his mother Elisabeth Ceschi a Santa Croce (1803-1874), born Mühlstetter.
