Prussian East Asia Expedition

The Carl Eduard von Martens correspondence from the 'Eulenburg expedition' to Stuttgart will first be offered individually cover by cover (lot 1172 to 1182).

After all lots have been offered individually, the correspondance will be offered intact as one lot (lot 1171).
The starting price of the entire correspondence will be fixed by the auctioneer based on the total of the realisations of all individual lots plus 10%. For the calculation of the starting price for the entire correspondence the auctioneer will calculate written bids on individual lots at their maximum bid (and not at their individual realisation) to avoid that the entire correspondence will be sold below a written bid on a single lot.

1171	**The correspondence of Carl Eduard von Martens**. The following eleven covers (lot 1172-1182), offered for sale for the first time on the philatelic market, are all envelopes, without contents, addressed from this famous German Zoologist, who travelled on the *'Thetis'* Expedition to Asia between 1860 and 1862. Born in Stuttgart in 1831, he became world famous for his work at the Berlin Museum, discovering over 150 new species of Molluscs. He was a prolific scientific writer and interested bidders will find more about this fascinating pioneer on Wikipedia etc. His correspondence is held in the Russian Academy in St. Petersburg. All the following covers have contemporary docketing of sending and receipt on reverse in ink. All are addressed to Stuttgart, Württemberg.	✉ **2'500**	*(€ 2'250)*

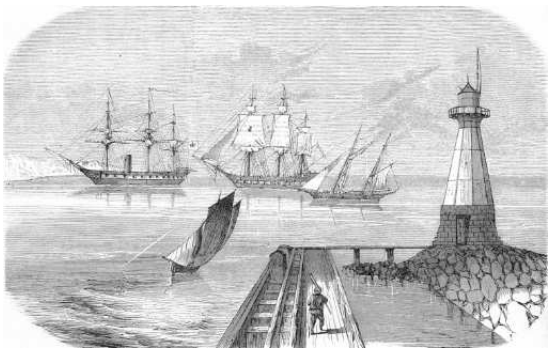
The Eulenburg Expedition (Prussian East Asia Expedition)

After the opening of Japan to the western world by four ships of the US Navy under command of Commodore Matthew Perry in July 1853, followed by a commercial treaty in 1858 (the so called 'Harris Treaty'), the European powers soon followed the US example and drew up their own treaties with Japan.

Eduard von Martens

In 1859, the Prussian King appointed Friedrich Albert Count of Eulenburg Extraordinary Envoy to a Prussian Mission to Eastern Asia. The expedition was provided with three warships from the Prussian East Asian Squadron, the SMS Arcona, SMS Thetis, SMS Frauenlob and a transport ship Elbe.

The expedition was also accompanied by geographical, geological and ethnological scientists, among them Eduard von Martens, a German zoologist (*1831 in Stuttgart, †1904 in Berlin).



'Arkona, Thetis and Frauenlob'
the three ships of the Prussian East Asian Expedition

The ships left Europe in March 1860 sailing via Rio de Janeiro (May 1860), Cape Horn at the south peak of South America to Singapore where they arrived in August 1860. Before the expedition reached Japan, SMS Frauenlob was lost in a thyphoon outside Yokohama with the entire crew of 5 officers and 42 men lost on 5 September 1860.

During difficult negotiations the expedition suffered another setback. Count Eulenburg had been assisted by Henry Heusken, a Dutch-American interpreter who usually worked for the US Consul. After a dinner with Count Eulenburg on 15 January 1861, Heusken was on his way back to the American Legation at Zenpuku Temple in Edo and was ambushed by seven shishi from the Satsuma clan. He suffered mortal wounds in the fight. This setback did not stop negotiations and finally Count Eulenburg signed the 'Treaty of Amity, Commerce and Navigation' on 24 January 1861. The treaty was based on other commercial treaties that Japan had signed with other Western powers and it would later count as one of the serial "unequal treaties" that Japan had been forced to sign in the late Tokugawa period.

In May 1861 the Eulenburg Expedition arrived in Tianjin, China. But China was at the time practicially inaccessible for scientists owing to the Taiping rebellion. On the other hand Count Eulenburg successfully initiated negotiations with the Qing Empire for a commercial treaty, which was signed on 2 September 1861. During this period of negotiations, the scientists part of the expedition sailed to other destinations such as the Philippines.

The Expedition then left for Siam. The delegation had been expected by King Mongkut for a year. The King *„....expressed his delight and inquired about the number and size of the warships, immediately thereafter he asked if the Prussians maintained colonies or had the intention to acquire them"*. The question answered in the negative *"....consoled him: he was all the more delighted to gain new unselfish friends as the old ones just became difficult"* (Fritz Count of Eulenburg).

After a long stay, on 17 February 1862 Fritz Graf von Eulenburg signed a Treaty in the name of Prussia, the German Customs Union and Mecklenburg.

Later the expedition continued to visit Java and Burma.

The correspondence of Carl Eduard von Martens, Zoological Scientist in the team of the expedition, follows the journey of the Eulenburg Expedition from the beginning to the end.

1232 1847: Embossed 1 s. green, Die 2, just touched at base and some usual splitting due to sharp embossing, used with 1854 1 d. red, Die I, perf. 16 on 1854 entire letter endorsed *'via Belgium'* to a Mrs. Gobat in Jerusalem, tied by '667' numeral obliterators with corresponding 'Rye' datestamp of despatch (Aug 2) on reverse in blue. Oval 'P' in red on front and 'Aus England per Aachen / Franco' datestamp in red. Reverse with Triest transit cds. An attractive entire and an extremely rare destination for this period and the earliest letter recorded with adhesive stamps from Britain to Palestine routed 'via Belguim and Triest'! Cert. Karl Louis (2016).
Note: The addressee, Mrs. Gobat was the wife of Dr. Samuel Gobat a Swiss Lutheran who became an Anglican Missionary in Ethiopia in 1830-32 and 1835-36, At this date he was the second Anglican Archbishop of Jerusalem opening a diocesan school (1847) and an *orphanage on Mount Zion. The letter is very prescient in its views 'I look however upon this present humbling of the Tsar (Crimean War)...as only a prelude to still greater power hereafter when the Russian power shall be joined by all Germanic nations and become the ultimate oppressor of the Jews in Palestine...'*

1307	1949: Inauguration of Constituent Assembly, Essay for the 250 pr. 'Road to Jerusalem' issue, the original Artist's design (750 x 1000 mm.) but for 150 pr. value, in similar colours to the issued stamp painted on thick card with transparent overlay and further annotations in pencil, and hand-writted 'redeem Jerusalem' added. The frame lettering at top was also changed from this Essay. Minor imperfections as this was a working Proof and both signed and struck with artist's handstamp (G. Shamir). A wonderful and extremely rare Essay for the specialist. Cert. Tsachor (2016). *(Photo = 279)*	15 Essay	(*)	**1'500**	*(€ 1'350)*

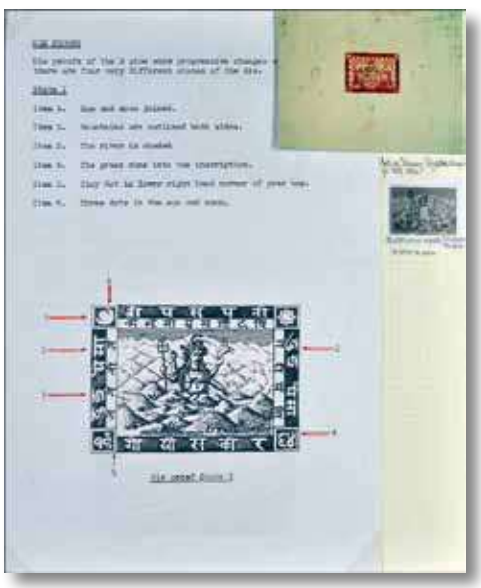
To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Private Treaty Nepal - The Shive Mahadeva Issue

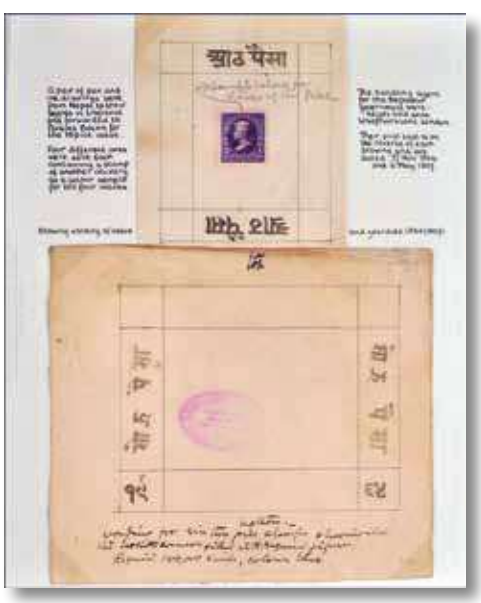
Nepal - The Shiva Mahadeva issues 1907 - 1930 - 1935

The outstanding collection, originally held in an archive by the printer's Perkins, Bacon & Co. of London in their Chancery Lane safe deposit. This safe deposit also held the Perkins, Bacon records as well as Proofs and Essays for stamps and banknotes printed by the Company.

1907 'Siva Mahadeva' issue begins with a 1906 pen and ink drawing sent from Nepal to their British Agents, Keyes & Sons of Whitefriars Lane in London, showing the inscriptions desired for a 16 pice value (similar to the first issues of 1881) and a sample USA adhesive in purple for the colour to be used. The second unique Essay is in rectangular format and dated 1907, with manuscript at base 'bottom / wording for the sixteen pice stamps showing also / the bottom corners filled with required figures / required 150'000 stamps / colour blue'.



Thereafter with Master Die Proof of 2 pice without corner denominations, struck in brown and an imperforate example in red, Die Proofs in green and black for 2 pice and full size Die Proofs in green on wove paper and a unique example on watermarked paper, 2 pice in an imperforate sheet of 100 on partially watermarked paper in brown (1) and in green (unissued), issued 2 pice blocks of 60 and 12 from left of sheet showing mirrored '2 Brown' at lower left margin, followed by Proofs of the 1907/08 issue (in blue and two in black) used to make up the central vignette of the 1930 5 rupee black & red-brown with two Proofs of same. 1907 Imperforate Proof for 4 pice green in a sheet of 200 divided by interpanneau margin leaving 10 tête-bêche pairs - unique, also a defaced sheet with the two halves rejoined, three imperforate sheets of 4 pice in green, perforated sheets close to the issued stamp in green (2), 1907/08 8 pice lake-red in an Imperforate sheet of 100 with '8 Lake' at lower left corner - unique; and a further perforated sheet of 100 with same imprint at lower left, again unique; 8 pice in deep red in an imperforate sheet on medium thick partially watermarked paper - unique; 16 pice purple in a partially watermarked block of 48 from top of sheet, Imperforate sheet of 100 and further blocks of 40, 20, 16 and 10 in differing shades; imperforate pairs on thin wove paper in a bluish shade (unique), 16 pice in a large part sheet of 93 stamps with imprint 16 Ame.st (Amethyst) at lower left and two further large blocks.



1930 'Siva Mahadeva' issue, with unfinished Die Proof of vignette in carmine, vignette and unfinished frame Die Proof in same colour, 24 pice Die Proof dated January 1929 in same colour (unissued thus), 32 p. Die Proof in blue (some fire damage), completed design for 1 rupee printed in green dated January 1930, Die / Plate Proofs for all 'pice' values in accepted colours (11), 1 rupee Die Proofs in carmine and in issued orange shade, 2 pice Imperforate sheet and in blocks of 4, 8 (two), 12 and 20 and fragile perforated sheets (2), 4 pice green Imperforate '2 pice' imprint block of six and a block of 12; 4 pice perforated sheet of 100 with imprint '4 pice' (2), 8 pice perforated sheet in red, 16 pice perforated sheet and a large block with water damage discolouration, 24 pice orange perforated full sheet, 32 pice blue perforated full sheet, 1 rupee orange perforated full sheet, 5 rupee black & red-brown large part sheet of 99, and a further completed Die Proof.

1935 'Siva Mahadeva' issue with State I, II, III, IV and V Die Proofs of the 2 pice brown including 'Final Proof', imperforate Plate Proofs blocks on colour of five values (the 8 p. was never found thus), 2 pice brown (shades) Imperforate block of 60 and unique sheets of 100 in very differing shades, 2 p. brown perforated sheet and a mis-perforated block of six, 4 p. green Imperforate sheet and large blocks with faulty 'dry' printings from Plate 1 and perforated sheets (2) also 2 mis-perforated sheets, 4 pice green Plate 2 imperforate sheets (4) and a large Imperforate block on pink toned paper (unique), mis-perforated sheet from Plate 2, 8 pice scarlet perforated sheet and a dramatically mis-perforated sheet (similar to a King Farouk production), 16 pice purple perforated sheet and a unique mis-perforated sheet, 24 pice orange in a perforated sheet and a Die Proof in issued colour, 32 pice blue perforated sheet.

During the 'Blitz' on London in 1940, the Luftwaffe scored a direct hit on the building, resulting initially in a fire on the premises or what remained of them, followed by a soaking from London's firemen. This has affected much of the material in the volumes. However, much of the material remains unique and, as such, could even be termed as unique reference collection, which will be offered as Private Treaty by Corinphila Auctions Zurich.

1538	1884: 4 c. + 4 c. black optd. in blue postal stationery cards, H&G 11, a very scarce used example mailed from Lima (Jan 11, 1884) to Valparaiso (Jan 22) and then returned back (to Paul Ascher). The card was issued on January 9, written on January 11. Exceptional usage and without doubt the earliest recorded use of this card. Rare. *(Photo = 329)*		✉	**500**	*(€ 450)*
1539	1884: 5 c. + 5 c. black postal stationery reply cards, a fresh mint example, each with 'Peru / Sun / Correos' imprint at top struck in brown (issued with pink imprint). Exceptional condition for this exceedingly rare error, unrecorded in Higgins & Gage, reported by Munk (page 10). As H&G 12a var. *(Photo = 329)*		✉	**400**	*(€ 360)*
1540	1884: 4 c. black optd. in red/pink postal stationery card, H&G 8, a very scarce used example to Stafford, Smith in Brighton, England cancelled by 'Lima / Principal' cds (March 27). Tiny closed nick in card at right but rare - believed to be the second earliest recorded usage of this card. *(Photo = 329)*		✉	**180**	*(€ 160)*
