4008	**1865 (Jan 1): First Printing** ½ real bright ultramarine on greyish wove paper with slight surface blueing, fine impression, the superb unused block of 42 being the right hand half of the sheet of 84 subjects, positions 7-12, 19-24, 31-36, 43-48, 55-60, 67-72, 79-84, with the sixth stamp showing a small tear, full marginal rule vertically at right and horizontally at both top and at base, minor bends between rows and some colour loss in small patches but this is of no real significance as this multiple represents the largest recorded of the First Printing where only two other large blocks (of 12 and 18) exist. The Caribbean and South America

Royal Mail Steam Packet Company (1875)

The Royal Mail Steam Packet Company was founded in 1839 by James Mc Queen. The mail services provided between England and the West Indies were inadequate and inefficient. Based on a contract closed in November 1841 the R. M. S. P. O. Co operated several main routes and in addition various subsidiary routs to cover the West Indian Islands, Cuba, San Domingo and the Central American ports in the Caribbeans.

6247 Die Proof for the 10 c. value on thick white card paper hand-painted in brown, pale blue and Chinese white, imperforate and attached to piece from the De La Rue Day Book, showing differences to the finished design: the flag being larger, the flagstaff not touching the circle at base and the vignette being on a solid background. There is a sheet marginal example of the finished stamp above and manuscript notation *"Royal Mail Steam Packet Company. Postage March 1875. 30 Set. If other duties are required we must make an overprint + cut away 10 Cents from the forme".* Minor imperfections to the Essay but wonderful and entirely unique.

The Lady McLeod

The Lady McLeod was a three masted paddle steamer, developing 40 horse power and was 109 ft in length. The ship was bought by David Bryce in 1846. By early 1847 the mail boat service had developed to such an extend, that Bryce issued the 'Lady McLeod" stamp.

6278 1847 (April 16): Lady McLeod (5 c.) blue, imperforate, a superb used example with huge margins on three sides and imperceptibly shaved in top margin but not cut into, used on 12th August 1847 entire letter from San Fernando to Port of Spain, cancelled by manuscript pen cross in ink. The letter mentions an enclosure (a bank transfer) and the addressee's name has been removed and professionally replaced (the cover was probably addressed to Barnet & Best Co.), the entire being one of just two known that does not emanate from the Taylor Graham correspondence. Census number C18, illustrated in 'Trinidad - A Philatelic History' on page 276. Rare and attractive. Cert. Friedl (1977) Gi = £ 24'000.
Note: This is the first stamp issued to prepay postage in the British Commonwealth and, except for the printing process (evidently by lithography from an original engraving) is in exactly the same size and format as the 1840 1 d. black.
Note: It is possible that 500, maybe 1'000 examples were printed. At the present time students of the issue have recorded 90 stamps in varying condition either on or off cover.
Reference: An excellent thirteen page article by Gregory Frantz on the Lady McLeod, with historical content and conjectures of possible sheet size and plating from the 90 recorded examples, is available on our website: www.corinphila.ch and also on the website: www.bcpsg.com of the British Caribbean Philatelic Study Group, who first published the article in their Journal in April and July 2016. 260	1848: Slave Revolt in Frederiksted. A somewhat tatty letter written from St. Croix to Keswick, UK endorsed *'per Royal Mail Steamer'* and charged 1/5 d. upon receipt. Reverse with ST. THOMAS British P.O. datestamp in black (Dec 31) and Keswick arrival in blue (Jan 26, 1849). The contents make fascinating reading about *"the War as the Negroes calls it...on the tuesday when the Slaves had got their Freedom and they were robbing all about... in the mean time an Overseer full split as hard as his horse would could go and she was a fine animal for God's sake, he says fly as hard as you can for there is about 50 horsemen coming after me and says they will kill every white man in the Island, then Mr. Newton came to me and asked what was to be done. I said stop here and shoot them... I said I was determined to live or die where I was then I was left with the Negroes all alone...I had a sword in one hand and a stick in the other, the first that came I knoocked him off his horse and then the people that was with me commenced and before 5 minutes the whole of them had fled...in the morning there was a crowd of people about 5 hundred came the Negroes from King Hill was with them and as soon as they saw me they would not do anything and they saved my life two or three times...I am now manager at an Estate called Petronella...the Island may do very well but if they (the Negroes) get on bad then the Island and the whole of us may go to the Devil...".* A fascinating historical insight.		✉	**120**	*(€ 110)*

		Yvert	Start price in CHF	Start price approx. €

715 French offices in Tunisia, La Goulette 1874 (Nov 24): Registered envelope from La Goulette in Tunesia to Tönsberg in Norway, bearing Siège 40 c. orange, three vertical pairs and a single example, fine adhesives with minor traces of oxidisation, tied by light dotted '5121' Gros Chiffres numeral lozenges in bluish black (Pothion 28 points = € 2'100). Light corresponding LA GOULETTE 24 NOV. 74 TUNISIE cogwheel cds alongside, covered by BONE 25 NOV. 74 ALGERIE cds in black, in addition framed PD and CHARGÉ, both in red. Reverse with timbre indicatif de chargement of Bone as well as two ambulant and Paris Etranger transit cds's. An amazing cover between two very rare places, in addition very attractive.

Note: The special single letter rate from the French offices in Tunesia to France was lowered to 60 centimes in May 1872 if sent with the direct vessel to Marseille and also in July 1873 if sent via Italy. This double rate letter had therefore to be franked with 120 c. which was doubled if registered, i.e. 240 centimes. This cover made its way to Le Havre where it was picked up by a direct Norvegian vessel to Christiania which was running since April 1870 and which added additional 40 c. to the postage, Thus the item is correctly franked with in total 280 centimes. A journey via Germany would have been 30 centimes more expensive. The receiver of this letter was Laurentius Foyn (1807-1889), a shipowner and member of the Storting, the Norwegian parliament.

Provenance: The Svein Arne Hansen International Gold Medal Collection 'Destination Norway 1840-1875', 66. Frimerkeauksjon (Nov 2007)

820	The first Hungarian stamp 1871: Lithographed 2 kr. chrome-olive perf. 9¼ : 9½, the poor first print with ink spots in the face of the Emperor giving the impression of being pock-marked, the perforation shifted to the base resulting in a strong shift of the design to the top, two illegible datestamps. One of the rarest stamps of Hungarian classical philately. Signed Ferenc Orbán; cert. István Glatz (2020) Mi = € 5'000. *Note: The new Hungarian state had decided to print its own stamps and to issue them on January 1st, 1871. However, by the middle of 1870 it had became evident, that the planned Engraved definitives could not be produced until this deadline. Therefore, a provisional Lithographed issue was planned with the Printing Office assumed to be able of preparing the necessary stones within a short time. Production probably started in December 1870, nearly eight million stamps and a considerable quantity of postal stationery had been produced, when quality problems were recognised. Eight million stamps and half a million envelopes were destroyed, only the 5 kr. stationery envelopes, postcards, and money transfer orders were continued to be printed. Some of the 2'100 sheets of the 2 kr. were in fact not destroyed and came into use in 1873. They are the earliest Hungarian produced stamps that were actually used. These chrome-yellow stamps were printed on a thick white paper very similar to that of the final Lithographed issue, but the design has a greater resemblance to the first postcards than to the later Lithographed 2 kr. stamp. Besides the spots on the profile, the right outer frame line is jagged and the inside circle of the bead frame is thinned or broken. As mentioned above, few stamps ecscaped the destruction, only about a dozen examples have been found so far, a complete cover is in the collection of the Hungarian Postal Stamp Museum in Budapest.*	I		**2'000**	*(€ 1'860)*

1163	1863 Coat of Arms 2 kr. yellow, perf. 14 used on February 1869 pre-printed entire letter sent at printed matter rate to Braila showing Austrian P.O. arrival mark on reverse, together with an April 1869 second letter, to the same addressee, franked with both 2 kr. perf. 14 and 2 kr. perf. 9½, both covers tied by the "Lloyd Agenzie - Constantinopoli" datestamps. Second cover cancelled April 10 and backstamped by "Braila 12/4 Sera" cds, the datestamp of the Romanian Post Office. After the Austria-Romania Postal Treaty of July 1868, which came into effect in April 1869, the twelve Austrian P.O.'s had been closed, among them the Austrian Braila P.O. The special Austrian Levant printed matter rate of 2 Soldi to Romania was then no longer permitted, the sender thus had to add another 2 Kr. value, in this case the perf. 9½ . Slight gum stains do not detract from the importance of this rare and unusual pair of covers - ably demonstrating both the two rare Printed Matter rates and the change of postal rates in 1869. Certs. 1272	United Principalities 1862/64: 6 pa. red handstruck from single Dies on thin wove paper, five single adhesives with fair to good margins, tied by "TIRGOVISTEA 14 / 7" cds's (Kiriac fig. 354) to cover front directed to Bucharest. The adhesives cut out of the sheet and glued one aside the other, partially overlapping. Horizontal and vertical filing folds, one slightly touching the third stamp from left. Minor irregularities as to be expected from such a mass franking, nevertheless an impressive presentation of the 30 parale office to office rate. Signed Heimbüchler; cert. Gmach (2020). *Note: Another comparable mass franking of the 6 parale from Tirgovistea is known, this time ten examples to pay either a double rate cover or a registered single rate cover, sold as part of the Cornelia collection in the Corinphila sale 149 (Feb 2007), lot 5054. Interestingly, both items were despatched on the same day (July 14) and presumably in the same year, the Cornelia item shows the handwritten number '156', the present item the number '157', both in an identical handwriting. This suggests either a shortage of 30 parale stamps in Tirgovistea at that time or - more probably - a usage of the 6 parale stamps which were not needed on local letters in small cities such as Tirgovistea. One cannot exclude that also the present item was part of a registered cover with the registration fee franking on the back and a RECEPISSE handstamp missing.*	9/Ix	(✉)	**2'500**	*(€ 2'325)*

Alt - Rumänien – Philatelie

Nach Volksabstimmung und Bestätigung durch eine gewählte Deputiertenkammer wurde am 13. Mai 1866 der junge Karl aus dem Hause Hohenzollern-Sigmaringen zum neuen rumänischen Fürsten bestimmt.

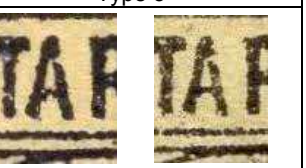

Fürst Carol (I)

Anlass genug, dem inländischen Postverkehr Briefmarken mit dem Bildnis des neuen Fürsten zur Verfügung zu stellen.

Im Steindruckverfahren erstellte man die tariflich benötigten drei Werte - den zu zwei Parale schwarz auf gelb, erforderlich um eine Drucksache innerhalb des Fürstentums Rumänien zu versenden.

Dr. Gertlieb Gmach hat sich des Werts zu 2 Parale angenommen, um an diesem Beispiel das angewandte Steindruckverfahren, die Zwischensteine und ihre Typenmerkmale, Anzahl und Identifizierung der verschiedenen Drucksteine sowie individuelle Druckfehler zu untersuchen.

Im Rahmen der Schriftenreihe des Münchener Briefmarken-Club e.V. legt er nun eine Studie vor, die das Sammelgebiet „Klassisches Rumänien“ in diesem Thema bereichern soll.

Österreichische und ungarische Posteinrichtungen in den Donaufürstentümern (Rumänien)

Eine vierbändige Abhandlung zur Postkommunikation im 19. Jahrhundert

Die ersten drei Bände dieser vierbändigen Kommunikationsgeschichte sind auf viel Anerkennung gestoßen und haben in Wettbewerben bereits beste Auszeichnungen erreicht – ein goldenes Posthorn in Sindelfingen 2015 etwa oder den Literaturpreis des DASV 2016. Nun rundet der Autor das Werk mit Band IV ab. Wie bisher behandelt er die Gegenstände in streng historischer Folge und stellt sie anhand von Quellen und zahlreichem Literatur- und Bildmaterial in einen gesamtgesellschaftlichen Kontext.

Es finden sich z.B. Darlegungen

- zur Entwicklung der Fahrpost oder
- zur Tätigkeit der landesfürstlichen bzw. fremden Posten (türkische, russische, französische oder griechische) je mit Beschreibung von Postwegen, Stempeln, Marken und Tarifen.

Einen weiteren Schwerpunkt bildet die österreichische Reform der In- bzw. Auslandstarife im Jahr 1866.

Die 17- und die 10-Kreuzer-Briefkontrollmarken der DDSG sind nach Druck-verfahren, Entwertungen und Tarifentwicklung eingehend vorgestellt und unter philatelistischen und postgeschichtlichen Gesichtspunkten bewertet.

Erläuterung und oft überraschend neue Einsichten erfährt der Ausgleich Öster-reichs mit Ungarn in seiner postgeschichtlichen Wirkung auf den behandelten Raum, etwa anhand der ungarischen Briefmarkenprovisorien und der Franz-Joseph-Ausgabe von 1867, ebenso wie die postvertragliche Neuordnung nach Ende des DÖPV (sog. Berliner Verträge) bis hin zur Übereinkunft Österreich-Ungarns mit den Vereinigten Fürstentümern, die zur Beendigung der öster-reichisch-ungarischen Postaktivitäten in der Moldau und der Walachei geführt hat.

Der Dobrudscha mit ihren ausländischen Posteinrichtungen in Czernavoda, Hirsova, Tultscha, Sulina oder Küstendje – seien es der Österreichische Lloyd, die DDSG oder österreichische und sonst fremde Postanstalten – ist ein eigener Abschnitt gewidmet.

Wichtig zu erwähnen:

Jedes Thema ist auf der Grundlage der einschlägigen Postverträge jederzeit auch mit Blick auf internationale Korrespondenzbeziehungen untersucht.

Damit ist die vierbändige Abhandlung zur Kommunikationsgeschichte des

19. Jahrhunderts in dieser Region abgeschlossen. Dem interessierten Postgeschichtler und Levantesammler steht nunmehr ein umfassendes, in erster Linie auf Quellen gestütztes Nachschlagewerk zur Verfügung. Es wird Anlass zu weiterer Auseinandersetzung und Forschung bieten.

Jeder Band - in gemeinschaftlicher Herausgabe des Münchener Briefmarken-Club e.V. mit Corinphila Auktionen AG Zürich und Heinrich Köhler Auktionshaus GmbH & Co. KG Wiesbaden - ist (auch gesondert) zum Preis von 60,00 € zzgl. Versandspesen zu beziehen über:

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Japan

1450	1875, Wild Goose 12 s. rose, Syllabic 3,with top sheet margin on envelope dispatched from 'YOKOHAMA 11 APR 1885' via 'BRINDISI 27 GIU 85' to Dresden/Germany with datestamp for arrival 30 May 1885 on reverse. The adhesive is cancelled with 'Y' type xC (Nishino handbook), but unfortunately not tied to the cover. The BPP expert for Japan, Florian Eichhorn, can not confirm the original use of the 12 s. Wild Goose stamp on the cover, and therefore states in his opinion (2020) "Marke und Stempel echt, Bestätigung als zum Brief zugehörig nicht möglich" (stamp and cancellations are genuine, confirmation of the stamp belonging to the envelope is not possible). The facts: 1.) correct UPU postage rate to Germany via Brindisi. 2.) the 'Y' type xC obliteration was used from 1884. 3.) the 'Y' type xC can have been used together with Nishino type 4B cancellation on the same cover. and the ink of the obliterations look similar in colour as if from the same ink pad. The adhesive stamp is marked in the lower left corner on the reverse by the German Expert 'R.F.Engel' (1897-1943) and shows full original gum on those parts of the reverse which are not affixed to the envelope. In addition the envelope is marked 'R.F.Engel' indicating that stamp and envelope were marked at the same time before the year 1943. Due to the extraordinary rarity of the Wild Goose 12 s. Syllabic 3 in mint condition we are convinced the 'Y' type xC obliteration to be genuine (also confirmed by Eichhorn BPP), although not recorded to date on the Wild Goose 12 s. After all the original use of the Wild Goose 12s. stamp on the envelope to Dresden seems to be very likely although it can not be proven with certainty due to the lack of obliteration tying from stamp to the envelope. Queen Victoria

1491

1491	2d. blue, plate 2, lettered MC, an unused example, good to large margins all round, of fresh colour with gum. Plate 2 in unused condition is very much rarer than plate 1; most unused stamps from plate 2 originate from the 'Mackay' block of seven unused horizontal rows, exhibited in 1898 at the Birmingham Philatelic Exhibition. The 'Mackay' block was heavily damaged and without gum, and shortly after the Birmingham Exhibition was cut up into smaller multiples and single examples. This example, with gum, does *not* emanate from the 'Mackay' multiple. On 1 March 1989 the RPSL issued a certificate confirming "unused", but as usual at the time did not mention the gum. Three months later the stamp was offered in a Phillips Auction 22 June 1989, lot 182. It therefore can be assumed, that the stamp was submitted by Phillips to the RPSL. It was then described by Phillips *"....fine with part original gum"*. Years later Stanley Gibbons also described the stamp as *"Superb unused o.g. (original gum) ..... rarely seen so fine, especially plate 2"*. When the stamp was recently re-submitted by Corinphila to the RPSL to qualify the gum in a new certificate, the RPSL declined the request. Therefore the stamp is now offered 'as is/tel quel' with RPSL cert. (1989) stating 'unused' not mentioning or giving a status for the gum (as usual in those days) and therefore not subject to return. Cert. RPS (1989) Gi = £ 45'000. *Provenance: Phillips, London, 22 June 1989, lot 182 (at the time illustrated in colour on the front cover of the auction catalogue).*	5	*/(*)	**4'000**	*(€ 3'720)*
