Brigadier General Anthony Wayne

		Start price in CHF	Start price approx. €

4011 1794 (Oct 11): Entire letter from an English Officer in Detroit via Halifax to London, struck with circular "HALIFAX / N. SCOTIA" datestamp (March 6, 1795) on reverse and, on obverse with framed "AMERICAN INLAND / POSTAGE" handstamp alongside the American (not United States) postage in manuscript of 1/6d., the *"Packet Postage"* of *"1s."* with a total charge of *"2/6d."* to pay. Three London arrival datestamps on reverse (April 20). This entire is illustrated in the Robson Lowe Encyclopaedia on page 370. Exceptional strikes and a remarkable and very rare entire.
Note: The British retained a Fort in Detroit until 1796. The letter's content after noting that building the new Fort at Detroit had made many soldier's ill is fascinating: "War with America has been very much talked of & General Wayne came close to the new Fort, but retreated, perhaps you know with greater certainty in England, what is to happen. The Americans complain very much, and the Indians whom we have always supported will fight no longer without some English Troops....this is the last opportunity of sending a letter to Europe."

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

The Brian Moorhouse International Large Gold Medal Collection

HAITI -
THE "LIBERTY HEAD" ISSUES 1881 - 1887

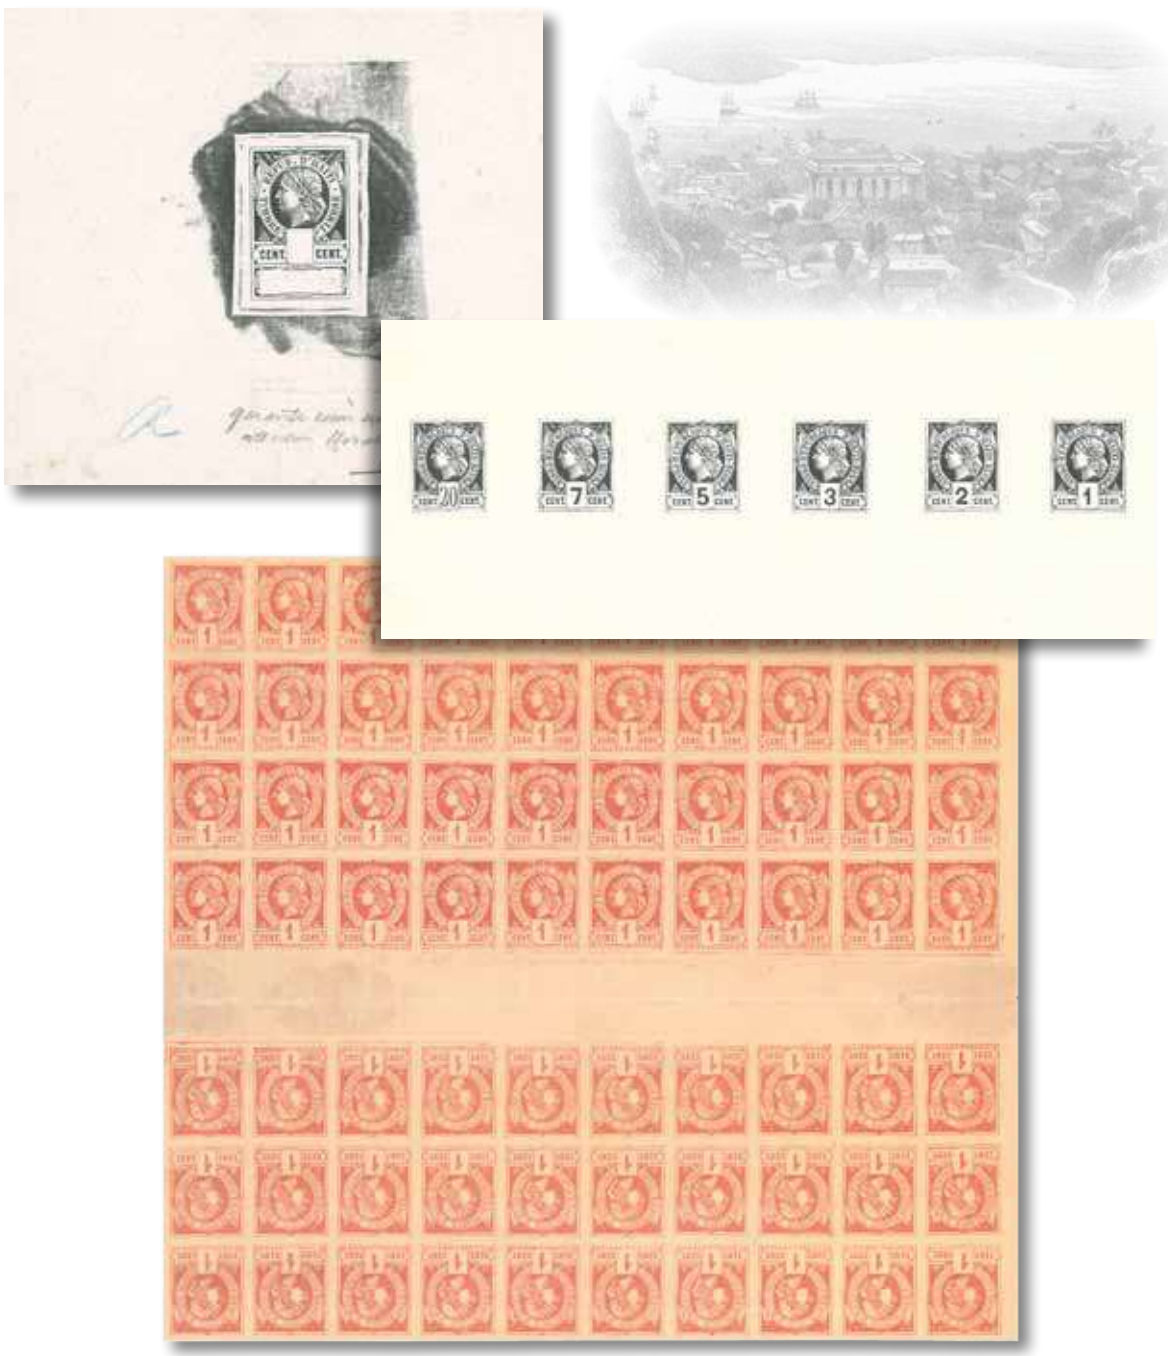

One of the most important collections of Haiti - "LIBERTY HEAD" Issues 1881 - 1887 ever formed!

Haiti both joined the U.P.U. and issued its first series of postage stamps showing the design of the 'Liberty Head' on 1st July 1881. A set of six imperforate values was issued. The Brian Moorhouse collection concerns itself with the imperforate and perforate issues. The collection is among the finest ever assembled incorporating nearly all key items from the famous collections of Thomas W. Hall, Ferrars H Tows, Dr. C.W. Hennan, Dr. Norman S. Hubbard and Enrique de Bustamante. In a display shown on 21st May 2015 to the Royal Philatelic Society, London, Brian summarised: "My own 'Liberty Head' collection started slowly in the 1990's and my first chance to expand it was the Sabattini auction. Over the next few years I was fortunate to buy the intact Carroll Lloyd collection directly from Caroll himself and I was able to obtain some interesting classic pieces from Wally Dean over a period of time. Other material came from different sources but, again, I was happy to be in the right place at the right time on the occasions when Haiti's two major pieces, the imperforate 1c. multiple with ten tete beche pairs and the registered cover with the strip of four imperforate 20c. values, were available for sale."

The collection was awarded Large Gold at AUSTRALIA 2013 in Melbourne and FINLANDIA 2017 in Tampere, Finland.

Great Britain Surface Printed Issues 1855-1901

The Hans Blom Collection

The Surface Printed Issues of Great Britain during the reign of Queen Victoria were designed, engraved and printed by Thomas De La Rue and Company under the supervision and instruction of the Inland Revenue. The decision to replace embossing by surface printing for postage stamps was made in January 1855. The Board of Inland Revenue (not the printers De La Rue!) paid Jean Ferdinand Joubert de la Ferte 100 guineas for engraving the Queen's head to be used for the surface printed stamps. The engraving was based upon a drawing by Henry Corbould and can be regarded as an exceptional artwork 'en miniature'.

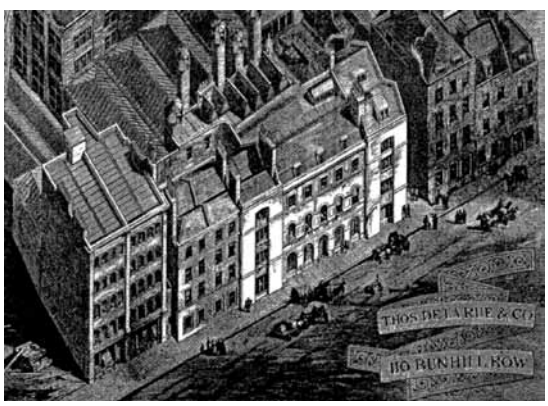

Queen Victoria

Initially starting in 1855 with the 4d., 6d. and 1s. stamp designs without 'Corner Letters', the decision was taken to implement small white letters in all four corners in 1862, altered to larger white corner letters in 1864.

The engraving of corner letters and plate numbers onto a Surface printing plate of 240 stamps took over four weeks. The use of plugs, inserted into holes machined through the die, speeded up printing plate production in 1873, but resulted in the corner letters being printed in colour instead of white.

From 1887 on, with the advent of the Jubilee Issue, the system of Corner letters was abandoned.

Premises of De La Rue

The Hans Blom collection shows the changes of designs, papers and colours of the De La Rue Surface Printed Issues as well as their postal use: with choice cancellations and usages on cover.

2d "Sydney View" Essay

View of Sydney by John Carmichael

NEW SOUTH WALES - The Unique 2d. Sydney View Essay.

In 1849, John Carmichael, the engraver of the 2d. Sydney View, submitted his Essays for the forthcoming first issue of New South Wales postage stamps, probably four Essays of which three, printed in faded orange-red, black and in deep blue are housed in the Tapling Collection in the British Library in London. The example pictured and offered here was probably turned down by the NSW Select Committee for the wording "TWOPENNY" and, in comparison to the 1d. and 3d. values prepared by Robert Clayton and H.C. Jervis, possibly expense, given this was a far more elaborately and accurately engraved vignette of the Seal of New South Wales than the two other values. The Committee were also said to have taken issue with the vignette, requesting the removal or redesign of the ship in full sail at right.

John Black Carmichael, famous engraver

The Essay, engraved on copper and printed in blue-black, has a brilliantly engraved central vignette, is lettered 'H' and 'A' at base but otherwise bears all the characteristics of Position 19 on the plate of 24 subjects (12 x 2), however after the Select Committee meeting, John Carmichael removed the vignette from the plate and also expunged the value tablet and added stars in the lower corners; the rest of the stamp remained as later issued. Thus position 19 was the earliest and initial impression forming the first plate.

Examples of Carmichael's Essay were discovered in 1869 and later Arthur Basset Hull discoursed on the subject of this Essay in "The Postage Stamps of New South Wales" having spotted that the Essay's "similarity is still more remarkable in the case of the nineteenth stamp of plate 1 which has certain peculiarities ... the peculiarities also occur on the Essay" and later proposes that "Carmichael must have first of all engraved No.19 and completed it before he commenced any of the other stamps, and then taken a printing of that single engraving....the background, the elaborate spandrels at the side and the balance of the inscriptions are absolutely identical line for line."

PRIVATE TREATY

1850: Essay for the Sydney View 2d. value, engraved and re-engraved on copper by John Carmichael, printed in blue-black, imperforate on wove paper. As an auction description - bland - however New South Wales became the world's tenth stamp issuing country on January 1, 1850. The Essay marks the birthplace of Australian stamp designs and is singularly the most important Essay available for the classic New South Wales collector. The sole example of this Essay outside of an institutional collection and thus the unique example in private ownership. This unique Essay is offered for sale by Private Treaty.

Provenance: 1869. Essays discovered.
Discussed by Dr. Andrew Houison (1890).
Discussed by Arthur Basset Hull (1911).
Collection John Hutson (sold privately).
Collection 'V.P. Manwood', Siegel, New York, 8 Nov 1995.
Certificate RPSL., 30 Sept 2009.

1850: Sydney View, 1 d. orange-red on soft thin yellowish paper, Plate 1, an unused block of twenty-three - the complete sheet less the two stamps at lower right, positions 24-25 - Plate Proof showing full sheet margins nearly all round, position 23 just shaved at right, position 18 with closed tear and several pressed creases but of no significance as the impression is of strong vibrant colour and is, without doubt, the largest multiple extant (the other large multiples of this Proof are of six and nine, sold together in the Corinphila 'Besançon' Sale I in November 2017, lot 6005) and thus this is a multiple of the foremost importance to both New South Wales and classic philately. A phenomenal Exhibition piece for the connoisseur.

Provenance: Collection John Hutson.

These two valuable and important items of New South Wales classic philately are available from Corinphila by Private Treaty at CHF 120'000. (no additional buyer's premium. Subject to Swiss VAT in case the collection will not be exported from Switzerland)

462	Saatijan 'reprints', compl. set of four values in complete sheets, 1c. and 20 c. sheets divided vertically in the middle, a great group for study of this interesting issue. *Note: The printing stones for the 1 c., 5 c., and 20 c. are in the Postal Museum in Paris. The printing stone of the 40 c. value came in 1907 in the possession of a Paris stamp dealer named Saatijan. From this stone he created 'reprints' or to be exact forgeries which show many characteristics of the original stamp including the hatching above 'POSTES' but which can be distinguished by the clear and smooth gum from the originals which have a thick and crazed gum. From the 40 c. stone Saatijan produced also stones for the three other values which can be distinguished when plated.* *Reference: Peter Smith decribes the history of this issue and its related 'reprints' and forgeries in detail in FFE # 3 on pp. 7-20.* *(Photo = 🗐 www)*		*/**	**200**	*(€ 180)*

The Dr. Juha Kauppinen International Large Gold Medal Collection

Trade caravane in the desert

The Dr. Juha Kauppinen International Large Gold collection of Ethiopian Postal History

Dr. Juha Kauppinen

In 1975, Dr. Juha Kauppinen (1944-2020) started to collect Ethiopia. Since then he has built one of the most important collections of Ethiopian Postal History ever assembled. The collection commences with rare early mail from this closed country from the 1840's carried by merchant caravans and ends in 1936 when the Italian Military occupation closed the Ethiopian Posts. During this time period Ethiopia was the only independent African state not controlled by a European power.

Granted by Emperor Menelik II to a Swiss Citizen, Alfred Ilg, the first Ethiopian posts started as a private enterprise on 29 January 1895. Until 1908, prior to UPU entry, Ethiopian stamps were not accepted for international use and mail required additional stamps, primarily from the Somali Coast, for onward transmission. Alfred Ilg's private concession was expropriated by Menelik in 1906 and was closed in February 1908 and the French re-organized a state owned Ethiopian post and joined the UPU on November 1, 1908.

Dr. Juha Kauppinen has made an extensive contribution to Ethiopian philately. As a long time member of the Ethiopian Philatelic Society, later being one of the directors of the E.P.S., he published numerous articles in the Society's 'Menelik's' Journal. These highly regarded articles dealt mainly with personal research and 'new finds' which added to Luciano Maria and Ulf Lindahl's database of all known items of the pre-UPU years. Having lived and worked as a Missionary for many years in Ethiopia, Dr. Juha Kauppinen had a detailed knowledge of Ethiopian culture. He was also able to read and write the Amharic language.

The collection was first shown internationally in Malaga, Spain in 2006, followed by EFIRO 2008 in Bucharest, Rome 2009, Lisbon 2010, London 2010 and Bangkok 2013. In Rome the collection won Gold for the first time, followed by an international FIP Gold Medal in Lisbon. Once the collections of Roberto Sciaky (2006) and Nahum Kaplan (Corinphila, 2011), had been sold, Dr. Juha Kauppinen was able to acquire several key items. At the FINLANDIA 2017 International Stamp exhibition in Tampere, the Dr. Juha Kauppinen collection was awarded a Large Gold Medal. Since then his collection has remained the only International Large Gold Medal awarded exhibit of Ethiopian philately.

Struck with framed "Paquebots / De La / Mediterranée" in red. Disinfected in Malta with circular "Purifiée au Lazaret / Malte" cachet in black and slitted, Marseille cds of transit (Aug 31) and Lyon arrival cds (Sept 2) where charged '24' décimes due in manuscript. An astonishingly early entire, the third earliest we have recorded, the letter being written by the French priest Justin de Jacobis, who had arrived in Adwa in October 1839. Extremely rare and fine. 599 1847 (Dec 1): Entire letter in English from Dabaraq (Dabarag) to Paris, France carried by merchant caravan via Kassala and thence via the Nile to Alexandria where put into the French Post Office with "Alexandrie / Egypte" cds (May 20) in black and Paris arrival cds (May 31) where charged '20' décimes due in manuscript. An astonishingly early entire, one of the earliest we have recorded, the letter being written by the Irish born explorer and geologist (among other things - see content) Anthony (Antoine) Thomson d'Abbadie (1810-1897), who had arrived with his brother in Ethiopia in 1837, leaving in 1848, having travelled all over Abyssinia as far South as the Kingdom of Kaffa. Extremely rare and fine. Cert. J-F. Brun (2016).
Note: The readable letter begins "Your letter dated February 18, 1845 is the latest which I have received from you. The French Agent at Massawa named Degoutin took both letters and money and took very good care not to inform me of their arrival...". The letter goes on to mention 'Briggs & Co.' (Forwarding Agents in Cairo) and "this distracted country is so full of thieves, rebels, robbers and petty armies... getting on the road is very dangerous" and mentions his two slaves in attendance. The letter is extraordinary and amazingly revealing about the customs of the local people concerning marriage (including to their own daughters).

An extremely rare and important cover. Cert. RPSL (2016). *Note: The writer, Hormuzd Rassam (1826-1910) at the age of 20 in 1846, Rassam was hired by the British archaeologist Austen Henry Layard (the above letter is addressed to Mrs Henry Layard) as a pay master at Nimrud, an Assyrian excavation site. Layard, who was in Mosul on his first expedition (1845–47), was impressed by the hard-working Rassam and took him under his wing; they would remain friends for life. Layard provided an opportunity for Rassam to travel to England and study at Magdalen College, Oxford. Layard left archeology to begin a political career. Rassam continued field work (1852–54) at Nimrud and Nineveh, where he made a number of important discoveries. These included the clay tablets that would later be deciphered by George Smith as the Epic of Gilgamesh, the world's oldest written narrative poem. With the help of Layard, he began a new career in government with a posting to the British Consulate in Aden, quickly rising to the post of First Political Resident and facilitating a number of agreements between the British and formerly hostile local community leaders. In 1866, an international crisis arose in Ethiopia when British missionaries were taken hostage by Emperor Tewodros II, Rassam would probably have prevented the entire Abyssinian campaign if not hindered in negotations with the Emperor Tewodoros by Charles Tilstone Beke.* *Provenance: Collection 'Menelik', Harmers, Lugano, 8 Dec 1989, lot 601* *Collection Roberto Sciaky, Harmers, London, 25 July 2006, lot 3.*		(AZ2+ AZ3+ AZ4)	✉	**2'500**	*(€ 2'250)*

Vorderseitig ist mit "*2 wtfr*" ein Weiterfranko von zwei Silbergroschen für den österreichischen Lloyd vermerkt, während drei Silbergroschen bei Sachsen verblieben. 1129✈	1933/1939: Sammlung von Pioneer Schleuderflugpost von und nach Südamerika mit circa 325 Briefen und Postkarten von den Anfängen an, darunter zwei Probeflüge aus dem Juni 1933. Ein Probeflugbrief ist mit deutschen Briefmarken frankiert, der andere mit Gambia Briefmarken. Weitere Highlights sind "Erstflüge" in beide Richtungen und eine Reihe von Erstzulassungen ausländischer Vertragsstaaten. Viele Briefe haben sehr hohe Frankierungen und sind rein bedarfsmässig entstanden. So zum Beispiel auch zwei Maschinen-Frankierungen. Es finden sich zum Teil seltene ausländische Akzeptanzen aus Grossbritannien, Italien, Österreich, Palestina, Polen, Schweden, der Schweiz, Spanien und der Tschechoslowakei. Dies ist eine bedeutende Sammlung dieses beliebten Gebiets. Der Zustand ist etwas gemischt, stellenweise tropisch und bedarf der Besichtigung. Insgesamt enthält die Sammlung viele hochwertige Stücke von zum Teil bedeutendem historischem Interesse. 1933/1939: Collection of Pioneer Catapult Airmail to and from South America containing approximately 325 letters and postcards from the very beginning including two trial flights from June 1933. One trial flight letter is franked with German stamps, the other is franked with Gambia stamps. Further highlights include "first flights" in both directions and a number of first acceptances. Many letters have very high frankings and are of an entirely commercial nature, including two meter frankings. There are rare foreign acceptances from Great Britain, Austria, Italy,Palestine, Poland, Sweden, Switzerland, Spain and Czechoslovakia. This is an execptional collection of this popular area. The condition is somewhat mixed, in places tropicalised and requires inspection. There are many good quality items of significant historical interest. *(Photo = www)*		✉	**2'500**	*(€ 2'250)*

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Austrian Levant

Early Levant mail & Lloyd Shipping Agency

1443	Early Levant Captain letters 1683/1731: Group of three Captain letters from Alexandria and Constantinople, incl.1683 from Alexandria via Marseilles to Livorno, 1703 Alexandria to Marseilles with a total transport time of 18 months, and 1731 from Constantinople to Venice. A delightful trio, well written up on leaves. *(Photo = 🗐 www)*		✉	**300**	*(€ 270)*
1444	Impact of the Napoleonic Wars on the Austrian Levant mail 1793/1799: Selection of two entire letters from Salonicco to Genova and from Smirne to Erfurt, the first with Semlin 'NETTO DI FUORA E SPORCO DI DENTRO' disinfection strike, sent further via Milano to Genova in Sardinia. In 1793 Milano was not yet occupied by Napoléon. The second entire was transported in 1799 due to the war circumstances with a courrier. *(Photo = 🗐 327)*		✉	**150**	*(€ 135)*
1445	Disinfected mail 1807/27: Group two Entires with clear Rothenturm 'Netto di Fuora e Sporco di Dentro' Arms disinfection cachets on front, the first one from Constantinople to Nürnberg, Bavaria which was routed due to unrest in Serbia via Vallachia and Transsylvania. The second cover was routed from Constantinople to Rheims with "Turquie.", "AT." and framed "AUTRICHE PAR HUNINGUE" postal treaty handstamps. An appealing duo. *(Photo = 🗐 327)*		✉	**200**	*(€ 180)*
1446	Disinfected mail 1818/42: Group two Entires from Constantinople to Firenze and Trieste showing the the two main routes to the west via Rothenturm and Semlin, respectively. Includes 1818 entire with crisp 'SANITATIS SIGILLUM' and red 'ROTHENTURN SIGIL. SANITATIS' wax seal as well as Florence arrival (Sept. 12) datestamp on reverse. Also 1842 entire with 'NETTO DI FUORA E SPORCO DI DENTRO' disinfection handstamp, red 'SIGIL SANITATIS SEMLIN' wax seal and Triest (Dec 3) arrival cds in red on reverse. An interesting duo which shows that the disinfection handstamps were similar at both purification stations, while the closing wax seals named the station. *Note: The normal overland way to the west was via Serbia up to 1803, crossing the border at Semlin. After this date, the journey via Vallachia and Transsylvania was chosen with the mail crossing the border at the Rothenturm disinfection station nearby Hermannstadt. After 1828 the route changed back to the Semlin way.* *(Photo = 🗐 327)*		✉	**150**	*(€ 135)*

CONTUMAZAMT AM ROTHENTURM in SIEBENBÜRG:' wax seal. An interesting and appealing cover briefly before the standard mailing route changed from Rothenturm to Semlin. *(Photo = 🗐 327)*		✉	**200**	*(€ 180)*

Alt - Rumänien – Philatelie

Nach Volksabstimmung und Bestätigung durch eine gewählte Deputiertenkammer wurde am 13. Mai 1866 der junge Karl aus dem Hause Hohenzollern-Sigmaringen zum neuen rumänischen Fürsten bestimmt.

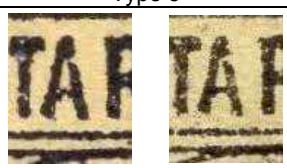

Fürst Carol (I)

Anlass genug, dem inländischen Postverkehr Briefmarken mit dem Bildnis des neuen Fürsten zur Verfügung zu stellen.

Im Steindruckverfahren erstellte man die tariflich benötigten drei Werte - den zu zwei Parale schwarz auf gelb, erforderlich um eine Drucksache innerhalb des Fürstentums Rumänien zu versenden.

Dr. Gertlieb Gmach hat sich des Werts zu 2 Parale angenommen, um an diesem Beispiel das angewandte Steindruckverfahren, die Zwischensteine und ihre Typenmerkmale, Anzahl und Identifizierung der verschiedenen Drucksteine sowie individuelle Druckfehler zu untersuchen.

Im Rahmen der Schriftenreihe des Münchener Briefmarken-Club e.V. legt er nun eine Studie vor, die das Sammelgebiet „Klassisches Rumänien“ in diesem Thema bereichern soll.

Österreichische und ungarische Posteinrichtungen in den Donaufürstentümern (Rumänien)

Eine vierbändige Abhandlung zur Postkommunikation im 19. Jahrhundert

Die ersten drei Bände dieser vierbändigen Kommunikationsgeschichte sind auf viel Anerkennung gestoßen und haben in Wettbewerben bereits beste Auszeichnungen erreicht – ein goldenes Posthorn in Sindelfingen 2015 etwa oder den Literaturpreis des DASV 2016. Nun rundet der Autor das Werk mit Band IV ab. Wie bisher behandelt er die Gegenstände in streng historischer Folge und stellt sie anhand von Quellen und zahlreichem Literatur- und Bildmaterial in einen gesamtgesellschaftlichen Kontext.

Es finden sich z.B. Darlegungen

- zur Entwicklung der Fahrpost oder
- zur Tätigkeit der landesfürstlichen bzw. fremden Posten (türkische, russische, französische oder griechische) je mit Beschreibung von Postwegen, Stempeln, Marken und Tarifen.

Einen weiteren Schwerpunkt bildet die österreichische Reform der In- bzw. Auslandstarife im Jahr 1866.

Die 17- und die 10-Kreuzer-Briefkontrollmarken der DDSG sind nach Druck-verfahren, Entwertungen und Tarifentwicklung eingehend vorgestellt und unter philatelistischen und postgeschichtlichen Gesichtspunkten bewertet.

Erläuterung und oft überraschend neue Einsichten erfährt der Ausgleich Öster-reichs mit Ungarn in seiner postgeschichtlichen Wirkung auf den behandelten Raum, etwa anhand der ungarischen Briefmarkenprovisorien und der Franz-Joseph-Ausgabe von 1867, ebenso wie die postvertragliche Neuordnung nach Ende des DÖPV (sog. Berliner Verträge) bis hin zur Übereinkunft Österreich-Ungarns mit den Vereinigten Fürstentümern, die zur Beendigung der öster-reichisch-ungarischen Postaktivitäten in der Moldau und der Walachei geführt hat.

Der Dobrudscha mit ihren ausländischen Posteinrichtungen in Czernavoda, Hirsova, Tultscha, Sulina oder Küstendje – seien es der Österreichische Lloyd, die DDSG oder österreichische und sonst fremde Postanstalten – ist ein eigener Abschnitt gewidmet.

Wichtig zu erwähnen:

Jedes Thema ist auf der Grundlage der einschlägigen Postverträge jederzeit auch mit Blick auf internationale Korrespondenzbeziehungen untersucht.

Damit ist die vierbändige Abhandlung zur Kommunikationsgeschichte des

19. Jahrhunderts in dieser Region abgeschlossen. Dem interessierten Postgeschichtler und Levantesammler steht nunmehr ein umfassendes, in erster Linie auf Quellen gestütztes Nachschlagewerk zur Verfügung. Es wird Anlass zu weiterer Auseinandersetzung und Forschung bieten.

Jeder Band - in gemeinschaftlicher Herausgabe des Münchener Briefmarken-Club e.V. mit Corinphila Auktionen AG Zürich und Heinrich Köhler Auktionshaus GmbH & Co. KG Wiesbaden - ist (auch gesondert) zum Preis von 60,00 € zzgl. Versandspesen zu beziehen über:

1565	1863 (June 25): Entire letter from the Russian Consular Post Office in Constantinople to Odessa bearing two single examples of Russia Imperial Arms 1858 10 kop. brown & blue perf. 12½, cancelled together with fair framed "Franco" handstamp in blue (Tchilinghirian fig. 7), reverse with crisp KONSTANTINOPOL despatch cds in blue (Tchilinghirian fig. 3). Horizontal filing fold well away from the stamps and left stamp with corner fault, nevertheless a clean and attractive entire opened for display. *Note: Russian Consular Post Offices accepted mail prior to 1863 and the "Franco" handstamp used on this entire is already known on a stampless cover from the Dr. Casey collection despatched in October 1862. This Casey cover proves thereby the usage of the "Franco" handstamp in the Consular P.O. rather than the ROPiT office in Constantinople to which it has been attributed in the past. Russian Imperial stamps were issued to the Levant P.O.'s in November 1862 and starting from 1863 to 1914 all Russian Post Offices in the Ottoman Empire were run by the Russian Company for Steam Navigation & Trade. The present cover shows therefore a very early usage of Russian Imperial adhesives in the Levant with only one other entire from the Cihangir collection despatched three days earlier. The Imperial adhesives were replaced by the ROPiT 'Steamer & Eagle' adhesives in 1865. In addition, the present cover is a fine presentation of the 20 kopeck port-to-port rate while additonal 10 kop. had to be franked for destinations within Russia.*	Russia 5 ✉	**2'000**	*(€ 1'800)*

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!
