WE ARE THE CORPORATION INTERNATIONALE DE PHILATÉLIE

Corinphila is an abbreviation of Corporation Internationale de Philatelie. From our offices in the business quarters of Zürich, in the Seefeld area at Wiesenstrasse 8, our sales are made with traditional formats such as the auction room for physical bidding, book bids, as well as live phone bidding. Our digital platform for online live bidding connects the largest community in the world with bidders and buyers. Implicitly this means that no other company has more underbidders and buyers.

We connect the largest community in the world with bidders and buyers.

	Material sorted under its right geographic collecting field Fisheries – The Jørgen Jørgensen Collection The Development of Aviation and Transportation of Mail by Air until 1914 – The Izhak Barak Collection	

2x Important Collections from Thematic Philately are Dispersed in this Sale!

Thematic Philately is a philatelic discipline which combines philatelic material from all other philatelic categories: traditional philately, postal history and postal stationery. In this sale we have not less than two acknowledged and rewarded collections being dispersed. **We have decided to present the material under its right geographic category following the catalogue structure throughout.**

The Izhak Barak Collection
The Development of Aviation and Transportation of Mail by Air until 1914

Izhak Barak's father was born in Germany, and he was a keen stamp collector. So it be quite natural for Izhak to "inherit" the hobby. Already as a child he became interested in aviation and airmail and so developed to become a thematic collector addressing aviation stamps and air mail. This was accompanied with looking for any book, catalogue and article related to the subject (it was before "Prof. Google's" time).

As the market became more flooded with philatelic material, Izhak decided to restrict himself in the pioneering era until 1914 as it was attractive with the adventurous and ingenious flying pioneers. For a certain period, he had to slow down and studied electrical engineering, he married, and he got four children. However, the returned to serious engagement with thematic philately and over the last 40 years the collection developed with scarce and sensational material (Zeppelin Mail, Pigeon Mail and Pioneer Flights), a scope for which this collection was awarded with several gold medals at international exhibitions.

The Jørgen Jørgensen Collection
Fisheries

Jørgen Jørgensen's (1944–2024) interest in stamp collecting began in the 1950s, inspired by his brother-in-law. He developed an interest in topical philately (as it was then known), focusing on his leisure passion — fishing, and fish on stamps. This evolved into his thematic exhibit on **Fisheries**, which won its first national gold medal in 1993 and an international large gold medal in 2003, followed by multiple large gold awards. The exhibit's final showing was at the Seven Nations Challenge in London in 2016. In Jørgen's different capacities in organized philately he contributed significantly to the development of thematic philately both in Denmark and internationally.

The Royal Mint in Melbourne

90105

90105 *SG 197, 198, 199* 1886/96: 'Long Stamps' £1 blue, 10 shilling pale green, 5 shilling rose-pink, in combination with 1876/1904 2 pence bright violet (to front), 3 pence olive-green, 6 pence pale blue and 1901 1 shilling brown, tied by red crayon and squared circle "WALLAROO S.A:10 SP 02" to the back of a Parcel tag to the Royal Mint in Melbourne, sent registered. Creasing which in the main does not affect adhesives. A remarkable multi-coloured franking of £1.16.11, with high-values. △ **500**

90106 *SG 230* 1891: Surcharge "5D" in red on 6 penny pale brown, fresh colour and mostly fine perforations, tied by superb framed "LOOSE SHIP LETTER" rectangular in black to an envelope sent to Melbourne, Australia. Reverse, arrival cds "MELBOURNE MY 30 92. Very attractive. Fine. *(Photo = CHF 50)* ✉ **150**

90107 *SG O20* 1883: Official 1 s. red-brown, overprinted in black "O.S." (Type O1), three singles, fresh colour, perforations mostly fine, the first stamp with variety No Stop after "S", tied by cds "PARCEL P.O. ADELAIDE S.A. AU 24 92", to a part Parcel Post label affixed to a 'On Her Majesty's Service' part envelope front, sent to Museum of Postage Stamps, Germany. Presentable parcel front which would have been part of a much larger parcel wrapper. Three-shillings for 4lbs-6oz (2s 8d) plus registration (3d) and late fee (1d). *(Photo = CHF 50)* (✉) **350**

Operations of Cuthbert's Goldmine

90118A

90118A *SG 164-212* 1947: Large registered parcel tag from Bwagaoia, dated 30 July 1947, addressed to the Bank of New South Wales, Sydney, from Cuthbert's Misima Goldmine Ltd., endorsed "This package contains one bar bullion." Franked with 1 pounds blue KGVI, Kangaroo 2 shilling vertical pair (faults), 1 shilling green, 3 pence brown and ½ penny orange, tied by BWAGAOIA / PAPUA cds. in purple, totalling £ 1.05.03½ d., paying the gold bar parcel rate. Manuscript "Address altered by Authority CMG Ltd" with postal officer's signature, officially redirected in transit. Two different registration labels (Bwagaoia 825 & 2090). An extraordinary survivor - gold bullion postal tag, redirected under official authority, combining Australian high-value frankings. A rarity of post-war Papua New Guinea postal history and of great thematic interest for gold mining and bullion transport. ✉ **200**

Bahamas

90119 *HvG 4, 53, 122, 128* 1929: Stationery registered envelope, 2 pence plus 1 penny red, uprated with 1921, 6 pence bistre, 1930, 5 pence black & purple and to the front the re-released 1918, "SPECIAL DELIVERY" in red on 5 pence black & mauve, tied by cds "NASSAU BAHAMAS 6 NO 30", sent Express delivery to New York, USA, with dark brownish-red express label and Nassau registration no. 279, endorsed "Air Mail". The JP Gough Collection (part II)

New Brunswick

90128C

90128C *Scott 2b* 1851-60: Royal Crown 6 pence mustard-yellow, blued paper, imperforate, fresh colour, large margins on three sides and just touching lower left corner, used on cover from New Brunswick to New York, USA, dated 29 September 1851, tied by framed oval barred cancellation (RH Type C1), with partial strike of blue Exchange Mail "NEW BRUNSWICK V. R. 1851" handstamp alongside. Reverse with "ST JOHN N.B. SE29 1851" in black. Three vertical filing folds not affecting stamp. A very fine and desirable cover paying the 6 d. rate to the United States, carried via the exchange office. The "mustard-yellow" shade is scarcer than the normal yellow and highly prized on cover. An attractive and important New Brunswick Six Pence cover - a cornerstone item for a Maritime Provinces or BNA collection. Certs. RPSL (1998) & Sismondo (2012) which states *"...earliest date of posting known of any cover bearing the six pence stamp..."*
Provenance: ex Dale-Lichtenstein. ✉ **750**

90128D

90128D *Scott 3* 1851-60: Royal Crown 6 d. yellow, blued paper, imperforate, two diagonally bisected halves from different stamps positioned together, strong colour, the right bisect with shaved margins, the other with ample to large, used on an envelope from Chatham, New Brunswick to Boston, USA, dated August 1858, tied by blue grid cancel with "ST. JOHN N.B. / AU 11 / 1858" circular datestamp in black alongside and red circular "PAID 10" transit mark. Reverse, a blue "CHATHAM N.B." townadated (AU ? 1858). Envelope has been folded back at left for display. Extraordinary franking, produced by the use of two different bisected 6 d. stamps to make the 6 d. rate. Illustrating an exceptional makeshift usage not often seen. Exhibition-worthy New Brunswick rarity - one of the most unusual bisect frankings recorded, and a highly desirable cross-border cover. Certs. RPSL (2012) & PF (2007).
Provenance: ex. Dale/Lichtenstein (private sale) ✉ **1'500**

90136A

90136A *48* 1871: Canada 1 cent blue Queen Victoria postal card, uprated with Great Britain 1872 ½ d. rose, plate 14, perforations mainly fine, used locally within London, dated 27 December 1873, tied by LONDON CHARING CROSS "21" duplex (FE 27 73), addressed locally to Guilford Lawn. Card originally issued in New Brunswick, with printed message of the Fairville Church Mission (Carleton, St. John, Nov. 1873). The card carried to England and re-used there, uprated by GB ½ d. There is a central vertical crease well clear of the adhesive (pulled perforation at base) and imprint. A remarkable and highly unusual "contrary to regulations" usage of a Canadian postal card, made valid in Britain b ✉ **250**

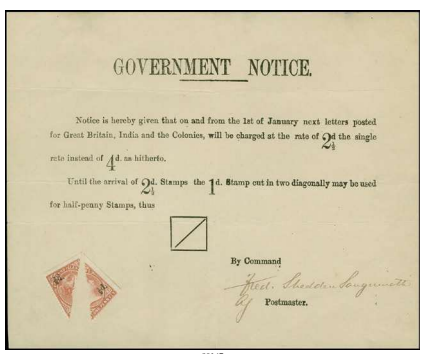

90136B

90136B *75* 1889: Small Queen 1 cent blue postal stationery card, cancelled by OTTAWA duplex dated 10 April 1889, additionally franked with 1870-89 Small Queen 1 cent yellow, strong colour, perforations mainly fine, sent from Niagra Falls to Jockgrim, Germany, tied by black cds of Niagara-on-the-Lake dated 6 April 1889; to pay the 2 ¢. UPU postcard rate to Germany. Posted short-paid and struck with bold two-line "RETURNED FOR / POSTAGE" in black which has been crossed out once the additional postage was applied. Arrival cds to front of Jockgrim dated 23 April 1889. Reverse, HAMILTON cds (AP 6 1889) and partial Canadian transit office cds (AP 9 1889). A scarce and attractive Returned for Postage uprated card to Germany - combining postal stationery, Small Queen adhesive, and international destination usage. ✉ **100**

Falkland Islands

90147

90147 *SG 13* 1891: Government Notice (203 x 165 mm.) authorising the provisional surcharges on 1st January 1891, the illustrative diagram square un-printed (unlike the example in Bunt collection) to show how the stamps were to be cut, bearing both halves of the ½ d. on 1 d. claret at lower left; the Notice has been signed by Fred Sheddon Sanguinetti at lower right in his role as Acting Postmaster. Folded as all these Notices are, this example not being folded near the two adhesives. An exceedingly rare sheet with just three recorded.
Note: The example in the Bunt collection was missing one bisected stamp, the example in the Ayre collection had full copies of the stamps un-bisected and cancelled by the "F1" obliterator.
Provenance: Collection E. A St. Helier Tweney; Cecil Martin (1955)
Dr. F. E. Baker; "Stanley" (March 1998)

Creasing to envelope well clear of stamp. Fine. Scarce printed matter rate Gi = £1'400. *(Photo = (J 92)* ✉ **300**

90186

90186 *SG 6/12* 1883: Proposed Scheme of Colours sheet (205 x 218 mm.) titled "Existing and Proposed Schemes of Colours" bearing 1876, 1 d. and 6 d., 1880, 2½ d. (imperf.) and 4 d. marked "Existing Colours", Keytype stamps in carmine perf. 14 (marked "1d" alongside) and in brown perf. 12 ("6d"), both without duty marked "Proposed colours for surface printed stamps" and with overlap piece bearing stamp in blue, perf. 14, in red-brown, perf. 14 (with 'X' across face) and 1d. (apparently oxidised) the first two without duty marked "2½d Proposed colour, being that established by the International Postal Convention for this duty 4d." and "6d" respectively, the last two bracketed as "Proposed colours". Alongside, a unique stamp in mauve perf. 12 overprinted "CANCELLED" (D4) with note above "Colour agreed to in CA\'s letter of 4 Dec 83". Exhibition showpiece.

Nigeria, Cameroon, Sudan
The Peter Hørlyck Collection (part III)

Peter Hørlyck FRPSL (1963–2021)

Peter Hørlyck FRPSL was a Danish philatelist. In November 2024 and in June 2025 we offered part I (sale #338) and part II (sale #347) of his collections. In the first single owner catalogue (#338) we presented the full format of Peter's portrait and presentation of his collections. In this sale we present part III.

Again, we have reasons for saying that Peter had an excellent eye for detail. He was analytical and intellectually talented which aided his philatelic research greatly. Although Peter had a substantial Commonwealth collection, his main interests were in the Postal Stationery of Nigeria, Cameroon and Sudan, which is reflected here in the concluding part from his collections.

3023 The original plate plan sent from Australia to Perkins Bacon for the design layout of the printing plates; mentioned in the letter dated 25th February 1914 sent from the Department of the Treasury Melbourne to The Official Secretary London, who received it on the 26th of March 1914. It states: *"The attached sheet of paper is forwarded for transmission to Messrs. Perkins Bacon and Company London. The sheet shows the approximate size of the panes of 60 of the new King's head stamp plates to be made by Messrs. Perkins Bacon and Company, and more particularly the margin to be left on the completed electro from the edge of the printing to that of the electro. The places in the margin marked "This part is to be cut out" is intended to allow for the insertion of a cutter which is used to facilitate the perforating." (Signed) George Allen, Secretary to the Treasury.* The layout is a to scale drawing showing the position of all 4 plates with descriptions for margin dimensions and areas where the margins are to be cut away for insertion of printing plugs to aid perforation. While the significance of this item cannot be overstated, being some 110 years old it is very fragile. Where the layout was historically folded and on the margins of the tape reinforcement, the paper is cracking and separating. May benefit being submitted to a paper conservator for restoration.

288	1857/59: 1 s. dull violett imperforate, wmk Large Star, a fine example with good to large margins, tied by light barred oval to 1860 cover to London, endorsed "via Marseilles", backstamped "COLOMBO / POST PAID" in red (June 26), "LONDON PAID" arrival datestamp on front (Aug 6). Upon arrival the receiver's address crossed out, the cover re-directed to Leamington, Warwickshire with the complete new address noted on the reverse of the cover, franked with 1 d. red-brown lettered QG, tied by oval "LONDON - W28" duplex datestamp with thimble LEAMINGTON arrival (Aug 7) cds in blue alongside. The cover cut along the edge to make the complete obverse and reverse visible for presentation reasons, stabilized from the back. No beauty but a cover full of postal history with a combination of the 1/- rate from Ceylon via Marseilles and a British inland franking. *(Photo = 81)*	10	✉	**200**

433	1854 (May 1): Entire letter written from Savane to Port Louis, struck with brilliant strike of italic framed *"Souillac"* handstamp with champfered corners in black (Proud D2) - struck on the earliest recorded date of use, with manuscript *"Unpaid 4d."* alongside; with framed INLAND and "♛ / MAURITIUS / GPO" cds if receipt (May 3) at right. Minor file folds but a rare entire with the *"Souillac"* strike exquisite. *Note: The Souillac handstamp is the example illustrated in the Proud handbook on page 386.* *(Photo = 105)*		✉	**250**
434	1857 (March 7): Soldier's Letter from Sgt. Wood, of the 5th Fusiliers in Mauritius and sent to Trenton, New Jersey, USA; countersigned by Commanding Officer at left. Reverse with oval framed "PACKET LETTER / MAURITIUS" and handstamped "2" (pence) for the unpaid amount due in London (double the concessionary rate), sent onwards from London to Boston where struck with "BOSTON / BR. PACKET" cds (May 21) in black, Petterson cds (in error, with "Missent to" alongside) and thence to Trenton with charge mark of "9" cents due (2 d. unpaid = 4 cents + USA internal charge of 5 c. = 9 cents due). It is interesting to note that the "9" is an inverted "6" as there was no handstamp in Boston for this rate. Full contents with the lot - the Sergeant is looking forward to leaving the Army as the (Northumberland) 5th Fusiliers are departing for Hong Kong. Some ageing due to conditions and journey but a rare usage. *(Photo = 107)*		✉	**250**

436	1828/46: Interesting group comprising 13 pre-philatelic letters/documents sent from Port Louis to Nantes, addressed to Bourcard & Luther, bearing manuscript charge marks alongside despatch, transit and arrival postmarks. The correspondence discusses the state of business on the island, primarily the export and sale of mules. One letter notes a shipment to the Loire arriving in pitiful condition, not consisting of selected beasts, yet still returning $230 each, despite 15 of the 60 animals having died. Other subjects include hurricanes, sugar prices, ship movements and the continued prosperity of the colony. Additionaly a group of 6 entire letters incoming mail 1836/1880, with 1836 entire from Valognes, France to Mauritius, struck with framed "PP" in red, readdressed on arrival to Plaines Willhems; prepaid June 1836 entire to Grand Port, Mauritius with oval "PAID SHIP LETTER / ♛ / LONDON" in red, similar entire mailed in 1837 with "MAURITIUS / POST OFFICE" cds of receipt in red (both ex Clifford correspondence); 1843 prepaid entire from Aberdeen; 1846 prepaid entire from London also struck with "PAID SHIP LETTER / ♛ / LONDON" in red, this last with "MAURITIUS / POST OFFICE" cds in black; 1880 Reunion to Port Louis with crisp 'ship letter' handstamp; also 6 entires / covers outgoing to France and Great Britain and two imperforate Imprimatur Pairs of 1860/63 Typographed by De La Rue 6 d. green and 1 s. buff. *(Photo = www)*		✉	**200**

The Cape of Good Hope triangular 4 d. blue was issued concurrently with the Great Britain 2 d. blue using the same inks. The London printing sheets were of 15 horizontal rows of 8 pairs, in each pair there are two slightly differing Types, known as Type A and B. The 4 d. blue has been successfully plated by the late Commander F.W. Collins AIEP of Winchester and his numbering system has been used throughout this sale: horizontal rows are represented by Roman numerals and the Vertical Rows by Arabic numbers.

Reverse with oval framed "GRAAFF REINET" despatch datestamp in red (July 29), oval framed CAPE TOWN and CAPE TOWN / CAPE OF GOOD HOPE cds in red (Aug 3). Carried on the bark *"Chieftain"* which left Cape Town on August 5th, arriving in London (Oct 15) with red cds on reverse and "ART - 2" Convention marking in black (Van der Linden surprisingly omitted) referring to GB-US Treaty of 15 Dec 1848. Thence via Liverpool and carried on Cunard Line steamer *"Persia"* to New York with circular "NEW YORK / BR. PKT." arrival (Oct 28) in black. A delightful entire of great rarity (the Dr. Guy Dillaway census records just 10 Transatlantic Cape Triangular covers) this being one of the finest and most attractive of the few known.
Note: Rates - Cape of Good Hope 8 d. paid for internal double rate cover under 1 ounce (the port fee charge of 4 d. was abolished on 1 August 1857, just two days earlier). Manuscript "1/4 d." would have been charged (double the 8 d. ship fee) had the letter been delivered to England, thus deleted. However the "2/6 d." manuscript charge is made up of the original 1 s. 4 d. + a further 1 s. for postage to USA + 2 d. for the cover being handled twice by the British P.O. = 2/6 d. This translates as 60 cents American (crossed through) plus double the inland charge of 5 cents = 70 cents to pay upon receipt. 6a ✉ **2'500**

No. 30.

FOREIGN AND COLONIAL

PARCEL POST.

ENCLOSURE OF LETTERS IN PARCELS.

SEALING OF FOREIGN PARCELS.

INFORMATION has been received that the addresses of parcels, sent from the United Kingdom to Italy and other Foreign Countries, are frequently fined because of the enclosure of post letters in such parcels contrary to the regulations of the Foreign and Colonial Parcel Post.

The senders of parcels to Foreign Countries and also to the Colonies of the Cape of Good Hope (including British Bechuanaland), Jamaica, Natal, New South Wales, South Australia, Trinidad, Victoria, and Western Australia, are therefore reminded that the enclosing in such parcels of any letter or communication of the nature of a letter is strictly prohibited, and that any violation of this rule renders the parcel liable to detention or the addressee to a fine.

As regards parcels for British Colonies, other than those mentioned above, the enclosing of a letter intended for delivery at the same address as that borne by the parcel is not prohibited.

Foreign Postal Administrations stipulate that parcels shall be securely sealed by means of lead or wax seals. Hitherto parcels not sealed have not been refused admission abroad, but risk of detention or non-delivery is incurred if this precaution is neglected. Parcels for Foreign Countries must therefore be sealed by the senders.

By Command of the Postmaster General.

90051

90051 *SG 178, 205, 210* Parcel Post 1884: Surface-Printed 2 shilling 6 pence lilac, used with Jubilee 1887, 4 pence green & brown and 1890, 10 pence dull purple & carmine, all of fresh colour and mainly good perforations, tied by undated circular "LEOMINSTER" to a parcel envelope sent to Rangoon, Burma, with manuscript British parcel number "46" in blue crayon, and an arrival cds in Rangoon (indistinguishable date). In addition, the India PO have removed the envelope from the parcel and applied a Parcel Control Label numbered "125" with "BOMBAY" boxed handstamp in purple. Heavy vertical filing fold through 4 pence and the corners of the envelope repaired from contemporary damage. Rare combination; only recorded example of an Indian "Parcel Control Label" on incoming mail.
Note: The UK began its parcel post service on 1 August 1883, three years after signing the Special Convention on Parcel Post (Paris 1880). The British opted for parcel labels glued onto parcels, even though parcels were irregular in shape, being wrapped in brown paper and held together by twine - joined under wax or lead seals. Cardboard boxes at the time were flimsy and rarely used. The British parcel system was modeled on its registry system, negating the need for the double-tracking of parcel envelopes used by most countries and adopted by the UPU. However, when sending parcels abroad, the British PO had to use parcel envelopes within the UPU parcel operating system. ✉ **1000**

595 1840: Mulready 1 d. letter-sheet, stereo A18, a used example from London to Newcastle upon Tyne cancelled by red Maltese Cross, two vertical file folds, internally dated *"London, 15 May 1840"* with interesting content *"I enclose you 2 dozen adhesive stamps which may be useful to stick on a letter when you have not the opportunity of paying the postage, the covers are paltry things, I will bring some of them..."*. A fascinating early document confirming the public's reaction of "useful adhesive stamps" and the almost universal criticism on the William Mulready designs. *(Photo = 143)* ME1 ✉ **500**

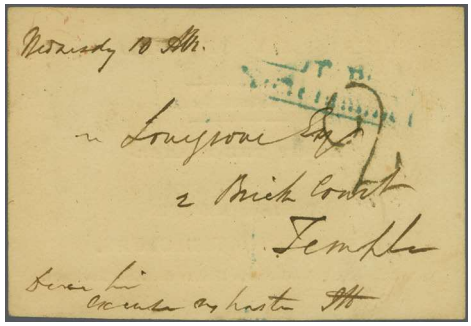

1823/87, Postal Documents & Notices

596 1823 (April 14): Entire letter from Asa Spencer in Philadelphia to Perkins Fairman & Heath (later Perkins Bacon & Petch) in Fleet Street, London, struck on despatch with circular "PHIL / 14 / APR" datestamp in red with "PAID" alongside manuscript *"12 c."*, reverse with poor framed "LIVERPOOL / *SHIP LETTER*" in black. The letter refers to the balance of payment due to Spencer under his agreement with the firm. Asa Spencer sailed over to the US together with Jacob Perkins and perfected the Geometric Lathe Rose-Engine. A scarce surviving entire.

POSTAGE CHARGES IN 1839.

This Sheet, 35 inches by 23 inches, weighing One Ounce, is charged as a SINGLE Letter, whilst the accompanying Letter, weighing 7 grains, or under the 60th part of One Ounce, is charged as a DOUBLE Letter.

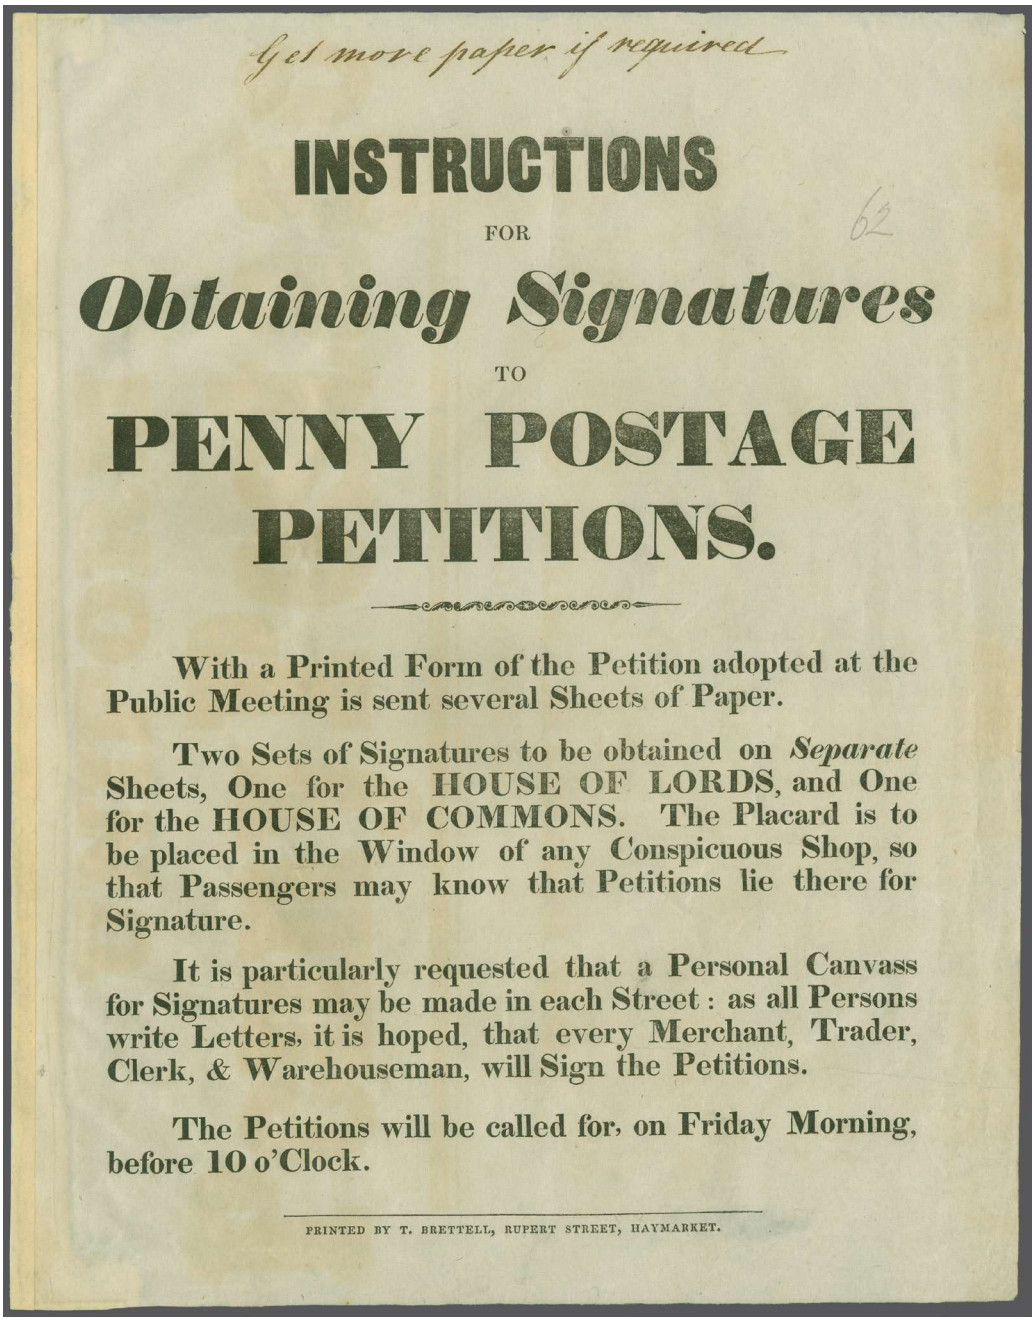

N.B.—In France, Germany, and throughout Europe, the Postage is charged by WEIGHT.

ANOMALIES.

" The delays of the threepenny post are notorious. A letter posted at Chelsea after 4 " p.m. to pass to Brompton, three quarters of a mile, occupies 22 hours in delivery, and travels " nearly 8 miles. A letter written at Uxbridge, after the close of the Post Office on Friday " night, would not be delivered at Gravesend, a distance of less than 40 miles, earlier than " Tuesday morning. ' If two letters,' says Mr. Hill, ' were put into the proper district " ' receiving-houses in London, between five and six o'clock in the evening, one addressed to " ' Highgate, the other to Wolverhampton (which lies 120 miles further along the same road), " ' the Wolverhampton letter would be delivered first.' Dr. Lardner shows that under some " circumstances it takes longer to convey a letter from Hammersmith to London than from " London to Bristol or Birmingham: the one, unless put in before four in the afternoon, will " not be delivered till noon the next day; the other, put in at a quarter before seven, will be " delivered at nine or ten."——*London and Westminster Review.*

" A few illustrations of the present rates of postage are worth producing. The last entry " of the index to the postage-report gives an amusing example of the vagaries of postage " charges. It stands thus—' ZEAL South and Honiton—a four-ounce packet from Exeter to " ' South Zeal, eighteen miles, would cost one penny; if sent to Honiton, sixteen miles, it " ' would cost six shillings and eightpence.' The inhabitants of Renfrew represented, in a " petition last Session, that if they posted ' a three-ounce letter to go to Lochwinnock, four- " ' teen miles distant, it would cost a penny; but if the same letter were addressed to " ' Pollockshaws, half the distance, or seven miles, it would be charged four shillings.' Different " charges are made on letters of the same sort carried to the same place. This depends on " the luck of the hour at which they are posted. Two Kingston-upon-Thames letters are " lying before us—threepence postage was paid on the one and eightpence on the other; " the difference of charge arising solely from the different hours at which they were posted. " Croydon letters are treated in the same manner."——*From the British and Foreign Review.*

PRACTICABILITY.

BY ROWLAND HILL.

"The facility of frequent, punctual, and quick communication, which the institution of the Post Office was calculated to secure, may be justly classed among the elements of profitable commerce It is essential to the purposes of government, and subservient to all the ends of national policy."
Eighteenth Report of the Commissioners of Revenue Inquiry, 1829.

"The principle of the Post Office at its establishment, as is distinctly laid down in the 12th Charles II., was to afford advantage to trade and commerce. The direct revenue to be derived from the Post Office was not the primary consideration."
Report on the Post Office by Lord Lowther.

"We have sufficiently informed ourselves on this subject to be satisfied that an alteration in the present system is absolutely necessary."

NOTICE TO THE PUBLIC.

GENERAL POST OFFICE, APRIL 28TH, 1840.

THE Lords of the Treasury having fixed the 6th of May next for the issue of Postage Stamps; on and after that day all Letters written on Stamped Paper, or inclosed in Stamped Covers, or having Stamps affixed to them, the Stamps in every such case being equal in value or amount to the rates of Postage now chargeable on such letters if pre-paid, will pass free of postage in whatever part of the United Kingdom they may be posted.

In those cases where the value of stamps on the letter is less than the amount of postage to which it would be now liable, if pre-paid, the letter will be charged double the amount of such difference on delivery. An inland letter, for example, weighing more than half-an-ounce, and not exceeding an ounce, if bearing only a penny stamp, will be charged two-pence on delivery.

The same regulation applies to letters pre-paid by money, where the full and proper rate of postage has not been paid in advance.

Stamps may be used for "Printed Votes" and "Proceedings in Parliament;" if the Stamps, however, should be less in value than the proper rate of postage to which these documents are subject, only the difference, and not double the difference, is to be charged.

Stamps may also be used on Foreign, Colonial, and Ship Letters, &c., outwards. If any letter, however, addressed to places beyond sea, shall bear an insufficient number of stamps, it will be sent to the Dead Letter Office, to be returned in all practicable cases, to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom from the Colonies or Foreign Countries. In such cases, therefore, letters will be chargeable with the same rates as they would be if not bearing stamps.

All these regulations will be applicable to Newspapers in those cases where they are liable to postage.

It must be distinctly understood that it is optional with the public either to use stamps, or to forward their letters, &c., pre-paid or un-paid, as at present.

The instructions issued in December and on the 4th February last, remain in full force; the only alteration being, that the stamps are permitted to be used in certain cases instead of the postage being paid in money.

(By Command) W. L. MABERLEY, *Sec.*

TO ALL POSTMASTERS.

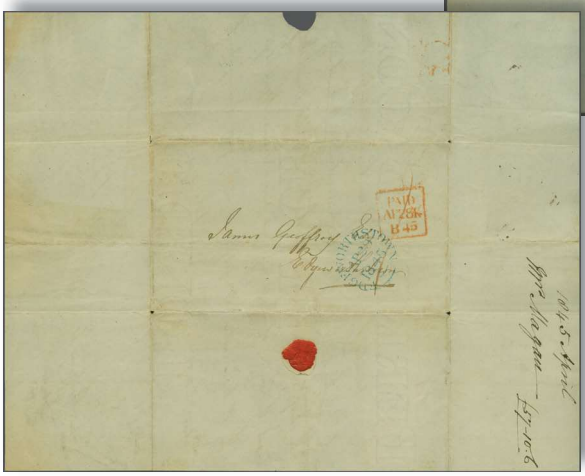

GENERAL POST OFFICE,
September, 1854.

The Postmaster General having been informed that certain Postmasters have been in the habit of allowing Letters from which Postage Stamps appear to have been accidently removed, to be delivered without the proper amount of Postage due upon them being charged, I am to desire that all such Letters may, in future, be invariably taxed with the full Unpaid Letter Rates.

Instructions No. 53, 1854.

By Command of the Postmaster General.

TO ALL POSTMASTERS.

GENERAL POST OFFICE,
September, 1854.

The Postmaster General having been informed that some persons employed in Country Post Offices are in the habit of collecting any Postage Stamps which may be found loose by them in the performance of their duty, His Lordship has been pleased to decide, that all Postmasters will in future be held responsible that such Stamps, *whether obliterated or not*, are properly collected and forwarded to this Office in accordance with the following instructions:—

1.—Postmasters must despatch all Stamps found in their own Offices or by any Letter Carrier or Messenger, and also those found in their Sub-Offices, to the General Post Office on the first of every month.

2.—In despatching the Stamps to London, Postmasters must state on a form which will be supplied for the purpose, and which must be sent with the Stamps, the number found in their own and each Sub-Office during the month, distinguishing for each Office the number obliterated from those which have not been cancelled.

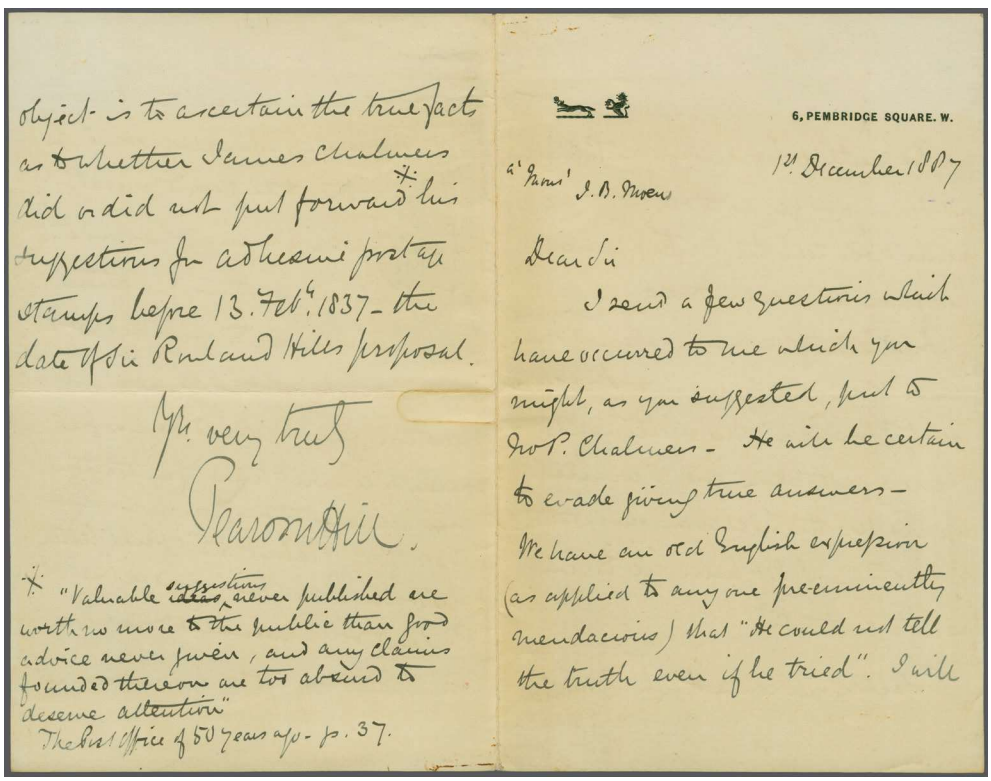

3.—Envelopes will be supplied in which the Stamps are to be forwarded to the General Post Office, and Postmasters must be very particular in stating on the envelope the *total* number of Stamps enclosed.

ROWLAND HILL,
Secretary.

608 1840: Perkins Bacon engine-turned background Trial finally selected in 1840 for the Line Engraved 1 d. and 2 d. adhesive stamps, plate proof impression in black on India paper (143 x 225 mm). Originally designed for a central band for a specimen banknote Perkins Bacon had submitted to the Bank of England (circa 1822) with a view to obtaining the contract for printing the bank notes. This is the Proof printing actually illustrated in the Stanley Gibbons Specialised catalogue, November 2020, on page 60 Gi DP9a = £ 30'000.
Note: The original 19th. century proof printings exist with various engraved markings outside the double frame line at top left (or bottom right): 'Page 123', '3' or without engraving. The earliest proof printings submitted to the Bank of England were without an engraved note. The proof printings with 'Page 123' (as offered here) is the 1827 published in London example from Transaction of the society for the encouragement of Arts, Manufactures and Commerce. This state of the printing plate was also used for the 6th. Edition of Thomas Joplin's book "An Essay of the General Principles and Present Practices of banking in England and Scotland (1826). In later years, the engraving 'Page 123' was removed leaving only the '3' (of 123) visible. Thomas Joplin was was the Chief Officer of the Provincial Bank of Ireland and he ordered his plates from Perkins, Fairman and Heath (later renamed Perkins Bacon) beginning in 1820.

719	1853: The so-called "Government Trial Perforation 14", 1 d. plate 74, sheet marginal block of 28, EF-EL/HF-HL (SG Spec. Cat. CE4), as SG 16d in the 1990's catalogued at £ 3'750 each, now no longer listed, unused with large part original gum, some (stronger) creasing and gum thins along creases. The existence of this block was not known until 2004, when it was offered in Paris. BPA certificate (2025) states: *"..gauge 14 perforations being unofficially added at a later date."* Remarks: Perforated stamps from this sheet, which were later attributed to the so-called "Government Trial Perforation 14" were first reported in 1910 in a marginal block of four, JK/KL, by Charles Nissen in "The British Philatelist". In 1910 Charles Nissen stated in regard of the new find: *"We shall be glad if someone, more conversant with the line-engraved series of our stamps, will assist in explaining what to us is at present somewhat of a puzzle"*. Some years later a few more singles or pairs came to light and have been spotted in the most renowned collections of their times: Visitors attending the Royal Silver Jubilee Exhibition, organised by the RPSL in May 1935, saw two blocks of four (of which one was the original 1910 find JK/KL), a pair and a single. A block of four lettered ED / FE, ws offered in the Ronald A. G. Lee collection by Stanley Gibbons in 1970, this block adjoins the block of 28 offered here. A pair, GD-GE, also formerly adjoined this block of 28 and to the two singles HD and HE described below, was offered by Harmers of London in the Per Gjerding collection in 1956. Two singles HD and HE, also formerly adjoining to the block of 28 offered here, were sold in 1929 by Charles Nissen for £ 7.10s. to Lady Joicey (HD) and HE was sold in the Wane collection by Harmers in November 1941 for £ 18. Having observed that the perforations on this block were not consistent with comb-perforation equipment available to Somerset House, Simpson & Sargent summarised the situation in their 2006 handbook as follows: *"Apart from ruling out Government trial perforation, almost everything else about these perforated stamps remains a mystery. Whatever the original manufacturer's motive in applying the perforation 14 may have been, that person must surely be deriving much quiet amusement at the enduring credulity of philatelists"*. A clandestine perforation 14, that became a curious chapter in British Philatelic History! For further reading see "Pick of the Pack", GB Journal July/August 2025, pages IX and X). *Provenance: Maurice Boule, Paris (2004)* *Collection Ray Simpson (Co-Author of "Stamp Perforation" handbook, by Ray Simpson & Peter Sargent, 2006).* *(Photo = 169)*	(16d)	⊞*/**	**1'000**

United Kingdom Airmail

847A→	**British Navy Pigeon Service** 1904: H.M. Naval Pigeon Service mesage, dated 16 April 1904, sent from onboard the *'S.S. Belos'* which was involved with the salvage operation to recover the British Submarine 'A1', which had sunk off the coast of Isle of Wight (killing all 17 crew members) following a collision with the merchant ship *'Berwick Castle'*. The message sent to the Pigeon Loft at Naval headquaters, from Captain Smith reads: *"Received birds from Destroyer and forms are all correct. One bird has got its eye pecked out. No. 1200 Blue Diver went down at 230am this monring. I blieve they are going to float her again this afternoon. Capt. Bacon is out here. H. Smith."* Comes on a page with an unused Pigeon service form 'Army Book 418' (2) printing on flimsy. In well preserved and clean condition. Some apparent faults to the used message and damage in places, as would be expected for such a mailing, but remarkably legible. Rare; the only message in private hands from this incident. *Ex The 'Izhak Barak' Collection: The Development of Aviation and Transportation of Mail by Air until 1914.* *(Photo = 181)*		✉	**1'000**
847B→	1904: ½ d. pale green, used on 1910 special "Empire Illustrated" First Aviation Mail Flight postcard, flown by C. Grahame-White from Blackpool, intended to be flown to Southport but only carried for seven miles when the plane was forced to land due to bad weather, the reverse overprinted with an explanation in red. The cards were then carried to London and this example posted to Taplow, Buckinghamshire, cancelled at London by a machine cancel in black dated 26 August 1910. Very minor corner creases and a little soiled, otherwise unusually fine and scarce. *Note: The first crash item listed by Nierinck.* *Ex The 'Izhak Barak' Collection: The Development of Aviation and Transportation of Mail by Air until 1914.* *(Photo = 181)*	217	✉	**200**

1083	1926: Inland Postage, 2½ b. black on white unused, imperforate on horizontally laid paper, a block of four (positions 13-14 / 18-19), **variety "5 bogaches value printed upright on reverse"**, good margins all round both on the 2½ b. and on the 5 b. on reverse, without gum as issued and surprisingly still unlisted by SG, this block most probably represents the largest multiple now extant of this rare variety. Signed Joe Saatchi, Todd AIEP. *Note: All the examples of this variety appear to have come from a block of 12 or 14 stamps formerly belonging to Brigadier Glynn Grylls who stated in an article in "The Philatelist" of August 1946 "the block is known to have been purchased at Hodeida in the normal course of Post Office business..." and in "Stamp Collecting" (February 1958) M.J. Moreton writes "The rarity, which has the two 'on white' values one on each side....(maybe) were from a waste sheet that got through, or was inadveretently reversed, and was printed with the next block of paper, i.e. the first sheet of the 5 b. value". 6019 1848 (March 3): Small blue-trimmed envelope from Owego, New York to Paris, bearing 1847 5 c. red-brown(Scott 1) a fine and fresh example with large even margins, beautiful dark shade and sharp impression, tied by crossed strikes of blue PAID straight-line handstamp, "OWEGO N.Y. MAR. 3" (1848) circular datestamp in the same ink at left, French "OUTRE-MER / LE HAVRE" entry cds in red (April 4) alongside. Reverse with "LIGNE-DU-HAVRE" ambulant and "PARIS / POSTE RESTANTE" arrival (April 5) cds's. The Voie de Mer fee of 1 décime and the French inland fee of 5 décimes was charged with a handstruck "6" décimes due. An extremely fine cover with a superb example of the first US adhesive, one of two covers recorded to be conveyed with private ships.
Note: According to the census of 1847 issue covers to France by Steven C. Walske, the noted authority on U.S.-French mails, only two covers are recorded that were carried by private ship to France. Regarding these covers, Walske writes: "Non-contract ships also carried small amounts of mail to France, and private ship rates applied to this type of mail in both the United States and France. In the United States, the 1845 inland rates applied: 5 c. per half ounce if sent less than 300 miles, and 10 c. if sent over 300 miles. France assessed a one décime (2 c.) ship fee plus variable inland rates until July 31, 1849. After that, collections in France were 3 décimes per 7.5 grams to the port of arrival or 6 décimes to other parts of France." The other cover, illustrated in Walske's article, also comes from the Octavius Yates correspondence.

1126	1862: Washington 3 ¢. rose, used on an envelope, from Waterbury, Connecticut to Maine, dated 17 August 1866, tied by the rare Waterbury "*FISH*" fancy cork cancel in black (Rohloff A-12). Second day of recorded use. William T. Crowe records eleven covers used between 16th - 31th August 1866. *Note: The Waterbury fancy 'Fish' cancel is one of the hand-carved cork cancellations created in Waterbury, Connecticut by Postal clerk/Postmaster John W. Hill in the 1860s–70s, part of the celebrated "Waterbury fancy cancels" series. Hill carved dozens of pictorial killers (animals, people, symbols) and used them briefly, which is why they're rare and avidly collected.* *Ex. Jørgen Jørgensen "FISHERIES".*	65	✉	**2'500**

1155	1879: Jackson 2 c. vermilion, Washington 3 c. green horizontal pair in combination with Taylor 5 c. blue horizontal pairs (2), used on circa 1880 Whaling Mail envelope from Boston to St Helena, dated 20 June, cancelled by manuscript pen cancel, the first pair of Taylor tied by BOSTON PAID 20 JUN' cds in black, addressed to "*Captain A.R. Heyer, Bark Wanderer, St. Helena, Atlantic Ocean*", with ST. HELENA JY 22 overwritten by *"110"* (c.) in red, for 11 d. postage due for British share. Reverse, faint London transit cds the dated indistinguishable. Stamps have faults and tone spots to edges. Comes with an accompanying envelope originating in San Diego franked with a tri-colour combination of US (4) at 27 c. rate sent to Captain A. Heyer's wife Myra, Barque Wander, St Helena, underpaid and taxed double rate of 2 s. 8 d. (single rate tax 1 s. 4 d.). Part of lower front missing but stamps mainly fine. Scarce duo of Whaling Mail with heartfelt human interest story attached (see note below) and the pair of covers combine extremely well. *Note: Postal charges from the U.S.A. to St. Helena where erratic at this time, the official rate being 27 c. from 1877 to 1885, these covers therefore covered that rate (the Boston cover was overpaid by 1c.) The bark "Wanderer" was the last whaling vessel to be built at the Mattapoisett ship yard. It was launched from New Bedford, Massachusetts, in June 1878, thereafter on a four year maiden voyage. Between 1878 and 1924 she carried out over twenty whaling expeditions and went on to appear in the film "Down to the Sea in Ships" in 1922 before being wrecked in 1924 on what was intended to be her final journey - the last wooden ship to set sail on a whaling voyage. In Febuary 1881 Myra, the wife of Captain Andrew Heyer, died in childbirth on St. Helena and Captain Heyer left the ship to care for his daughter, who was named Myra after her mother. The Captain returned to Massachussetts from St. Helena when young Myra was eight months old.* *Reference: Cameo Volume 18, Number 3, Whole Number 102, October 2017, illustrated pg. 220.* *Provenance: Collection Welch; Markovits and Hogg.* *(Photo = 249)*	183/185	✉	**300**
1156→	1938/44: United States WWII Airmail to Lebanon and Europe. Lot of 25 airmail covers, franked with a variety of US airmail and definitive issues of the period, showing a broad range of rates and combinations. 23 covers addressed to Beirut, Lebanon, plus 1 to Germany and 1 to Czechoslovakia. Nearly all covers show wartime censor markings or resealing labels, including US and foreign censor handstamps/tapes. Clear strikes of Boston, Chicago, Berwyn, New York and Jackson Hieghts and other US postmarks. Strong representation of the 1938 Transatlantic Clipper issue (10 ¢. & 25 ¢.). Several covers show mixed franking with definitives or commemoratives. Carried during the crucial WWII years when transatlantic and Middle East airmail routes were disrupted, rerouted, or censored. Covers to Lebanon reflect the shifting control of the French Mandate (Vichy / Free French), adding further postal-historical significance. Overall good to fine, typical flaws and opening wear. An appealing group for the collector of WWII postal history, US airmail usages, or Middle East destinations. The Lebanon correspondence, with varied censoring and frankings, provides excellent material for study or exhibit. *(Photo = www)*		✉	**200**

10526 30 reis grey, worn impression single example and 60 reis grey, worn impression - two horizontal pairs, used on reverse of 1844 cover from Rio de Janeiro to Cachoeira carried at Maritime double rate of 180 reis and internal land rate of 90 reis = 270 reis, all tied to reverse by "CORREIO GERAL DA CORTE" datestamps (Dec 15, 1844). Obverse endorsed *"Primr. Vapor"* with acid ink fault below, the cover initially journeying South on the first ship and struck with circular PORTO AL. (Porto Alegre) datestamp (Jan 18, 1845) in black and eventually docketed on receipt: *"Recibida a 28 Jano. 1845"* on front panel. An extraordinary franking: **the second largest known franking of the Bull's Eye issue, and the largest mixed franking**. Cert. Moorhouse (2013).

10561 600 r. grey-black, worn impression on greyish paper, the block of four used on large piece of 1853 "Segura" registered and insured cover, in combination with Verticais 1850 10 r. black in a vertical strip of three and 90 r. black in a vertical strip of three, the unique 600 r. block with large margins on three sides and just shaved at right, all cancelled by circular "CORREIO GERAL DA CORTE / BRAZIL" datestamps (Dec 26) in black. The rate of insurance is noted in manuscript at left of the stamps with the postal clerk noting the three combined values underneath each multiple = 25700 reis postage paid + 1$000 insurance at 2% covered for a value of 50$000 reis. Small imperfections with vertical crease throught the 600 r. block but of no significance; an astonishing item, being one of two covers known with a combunation of the Inclinados and the Verticais issue. The sole known cover bearing an Inclinador 600 reis and an item of immense rarity and great appeal - the key item of the Inclinados issue.

Chile - The Colon Issues 1853-1867

The Art Bunce Collection

Art has collected stamps since the age of eleven, forming award-winning exhibits of Sarawak, Japanese Occupation of Sarawak, Bolivia, the 15c Large Queen and Quebec Tercentenary issues of Canada and the Cavallini lettersheets of Sardinia.

He was drawn to collect and exhibit the first issue of Chile by friends such as the late Brian Moorhouse and other Chile collectors, who encouraged, taught and accompanied him in the formation of his exhibit, which won the Grand Award at SANDICAL, a national-level show in San Diego, California in 2010. Art is now beginning to liquidate this and other dormant exhibit collections as he prepares to publish a pioneering monograph on a subject completely new to philately: The watermarks of the AQ Lettersheets of the Republic of Venice, 1608-1797, which he has exhibited with some success.

With as many as nine printings by four different printers using two different printing methods (line-engraving and lithography), the first issue of Chile has long since achieved legendary status as one of the most complex and challenging subjects throughout classical philately and for generations has both enthralled and sometimes bemused some of the most distinguished and knowledgeable philatelists.

The plates for Chile's first postage stamps were produced by Perkins Bacon & Co. of London, at that time undoubtedly the world's most accomplished and experienced manufacturers of postage stamps, who also produced the first printing, which was shipped to Chile in the autumn of 1853. As the stamps came into use and stocks began decreasing at a much more rapid pace than had been expected, a local printer, Narciso Desmadryl of Santiago, who specialised in steel-engraving, was commissioned to print a second batch as early as January 1854. In April of the same year a similar contract was signed with Henri C. Gillet, who had submitted a lower offer. Inexperienced in the technology of printing from steel plates, Gillet abandoned this technique after a first delivery of 500 sheets, which had not been deemed of the required printing quality, produced a lithographic stone by copying the steel plates by means of autography, and printed another 500 sheets in this manner. There followed another printing from steel plates by Desmadryl of Santiago, two further printings by Perkins Bacon and two printings by the Chilean Post Office in Santiago.

Built with great patience, profound knowledge and a remarkable eye for detail, Art Bunce's collection of the Colón issues includes many important items, from scarce proofs through shades of colour, errors, plate flaws and impressive multiples to varied and interesting usages on cover. With most of the material offered having been off the market for several decades we are confident the sale of this remarkable collection will enable a new generation of collectors, from enthusiastic beginners to the most seasoned of experts, to make significant additions to their own collections.

Rare. *Note: Upon Brian Moorhouse's return from the ABN archives sale in New York in 1990, the complete sheets were sold to Martyn Cusworth. The sheets, due to their size were extensively damaged and were eventually cut up (in 2018) to protect the remaining proofs. The ABN imprint was applied once on all four sides of the sheet, these being the finest known of the three sets available to collectors.* *(Photo = 253)*		⊞(*)	**200**

One of the greatest collection of revenues of Haiti ever assembled, including a highly researched, eight-frame exhibit the Documentary Revenues of Haiti, 1807 - 1957.

The collection contains material from the early 1800s to the end of the 20th century.

Most of it is difficult to acquire and impossible to duplicate. The exceptional eight-frame exhibit collection tracing the history and evolution of the documentary revenues of Haiti, beginning with the first recorded fiscal law of 1807 and extending to 1957 with the election of François Duvalier, organised in accordance with the thirty-nine fiscal laws of the period, including French colonial statutes, under which numerous forms of revenue paper and revenue stamps were introduced. Encompassing stamps, documents, proofs, and essays the exhibit includes over thirty five documents, most bearing fiscal handstamps and early tax exemptions, together with more than twenty examples of adhesive revenues on document, with usages recorded between 1883 and 1940 on promissory notes, bank drafts, rent receipts, cheques, passport fee receipts, exit visas, insurance policies, notices of occupation tax, and licence fees, as well as more than one hundred and fifty SPECIMEN overprints, many in blocks, together with several examples of postal usages on cover, and an extensive study of the "Timbres Mobile" issues, the underlying research for which yielded new discoveries relating to printing dates, correcting previously-accepted data.

The field of Haitian revenues is replete with elusive and uncommon material, owing not only to the ephemeral nature of the usages but also to the fact that such items were never distributed to collectors, existing only as evidence of fees paid. The collection is rich in rarities, many representing the earliest recorded examples or, in some cases, the only known.

Amongst the highlights of this exhibit: the earliest recorded Presidential Tax Exemption (1813); the second earliest reported documentary tax document (1814); one of only two recorded ½ escalin handstamps and the unique example with dotted circle and wreath design (1814); the earliest recorded Military Tax Exemption (1812); the only recorded voucher documenting African American immigration to Haiti (1825); the earliest known use of the 12c handstamp (1821); the earliest recorded use of the 12c handstamp under the 1827–28 fiscal laws of the Republic (struck on a document permitting the disembarkation from the English brig Cleopatra); the earliest recorded use of the 6c handstamp under the same laws, and the second latest taxed document of this period; the latest recorded of only six known documents used during the Haitian occupation of eastern Hispaniola (1839); the earliest and third earliest known usages of a handstamp during the 1851/54 period; and the second earliest recorded handstamp under the fiscal laws of 1864; as well as the only recorded blank stamped revenue paper, and examples for each of the different red handstamps applied between 1818 and (circa) 1936.

Later highlights include the 1881 1 c. stamp model for the fiscal essays and a range of Richard & Cie essays following the 1880 authorisation for fiscal issues; the 1883 Erect Palm Fronds design with various shades and usages, including the largest surviving 2 c. on buff multiple in a block of twenty, two of the four known covers (1892/94), and the previously unrecorded 1906 2 c. postal surcharge on the issue; Essays of the unissued 1886–87 "Liberty Head" design; the only two recorded P2OR and P3OR overprints of 1906; the only recorded booklet cover for the 1906 $1 Proportional Tax issue; the unique surviving copy of the 20 gourdes 1906 Proportional Tax; the scarce TM (Timbre Mobile) overprints on the 1914 issue for General Zamor's Triumphal March; the only recorded 1923 Timbre Mobile locally-overprinted "Provisoire" revenue stamp used for postage; the only used example of the 1923 $3 Timbre Mobile; one of only two recorded examples of the 10 c. stamped paper of the first 1925 series and one of only three of the 20 c.; and one of the only recorded documents bearing a $2 Timbre Mobile stamp of 1925.

The above is complemented by supplemental material not incorporated into the award winning exhibit, including dozens of album and stock pages containing many hundreds of stamps, booklet panes, etc., as well as dozens of documents, ranging from several earlier handstamped examples to later material following that covered in the principal study. Several Moorhouse certificates accompany, some in photocopy.

The collection also contains a large number of later documentary revenues, and revenues issued during the Duvalier regime. Revenues for alcohol, cigarettes and cigars, town markets and fairs and horse tethering are also found in proof, mint and used examples. Most of this material is extremely uncommon, and difficult to acquire on the philatelic market.

This is a collection of superior quality for its type, in most instances the material being among the finest available, remarkable given the fragile and ephemeral nature of the documents, the harsh climate, and the frequent civil unrest that has afflicted Haiti. A groundbreaking collection, ideal for expansion, its foundational research yielding tremendous potential for further study, in an area still rich with potential for discovery.

1516✈	Worldwide Thematic Collection – PIGEON MAIL, KITES & GLIDERS, 1898–2010 (15 Exhibition Pages). A fascinating and highly original specialised thematic collection devoted to pigeon post, kite mail and glider experiments, mounted on 15 exhibition pages (including one oversized A3). The assembly comprises ca. 70 items and combines proofs, essays, scarce stamps and remarkable postal history, providing a coherent study of mankind’s earliest airborne communications. Highlights include: 3 artist’s essays, notably original adopted artwork by André Lavergne and rare bird sketches by Nick Shrewring (Bahamas), 4 die proofs, 5 Greece Olympic Games colour proofs (stamp-size, 2 on wove paper, 3 on card), 1898 Great Barrier Island “Pigeon Post” selection (6 unused), French military pigeon post postal history, including: Cover from the Military Pigeon Loft Station, Belfort, bearing the blue boxed “COLOMBIER MILITAIRE BELFORT” handstamp, Postcard dated 18 July 1904 from Military Pigeon Loft Station, 71 Bd. Victor, Paris, with black “Croix Rouge Française – Colombophile” vignette, 1905 “Le Matin” Newspaper Pigeon Post flimsy message actually carried by pigeon, Printed postcard “La Poste par Pigeons” with attached envelope labelled “Message par Pigeon”. Additional worldwide commemorative and pigeon-themed issues, including Mauritania UPU Specimens depicting a pigeon carrying a letter. Condition is generally fine, with many items of significant rarity and exhibition calibre. A superb specialist thematic study on an unusual and appealing subject, combining depth in proofs and essays with scarce pioneer and military pigeon post items. Rarely offered in such a coherent form. *Ex. The ‘Izhak Barak’ Collection: The Development of Aviation and Transportation of Mail by Air until 1914.*	✉*/ (*)/**	**500**
1517✈	Worldwide Thematic Collection – Aviation & Airmail, 1828–2014 (47 Exhibition Pages). An extensive and highly specialised worldwide thematic collection devoted to aviation and the development of airmail, presented on 47 exhibition pages and accompanied by a supplementary stockbook. Carefully written-up and structured as a study of mankind’s progress from myth to flight, the collection traces the evolution of “mail by air” over nearly two centuries. The principal exhibit comprises: 19 sunken die proofs, 36 colour proofs (including a notable quantity of Spain Los Desparates “Follies”), 2 signed artist’s essays (Albert Decaris’ unadopted colour design of Blaise Pascal, and preliminary sketch for the 1968 Jeanne d’Arc), a substantial range of aviation/airmail/flight stamps (notably including Italian Occupation of Ionian Islands 1945 Daedalus & Pegasus), 17 booklets, 19 covers/cards (including an 1840 1d. black Mulready with personal letter), 8 pieces. The thematic storyline follows the broad sweep of aeronautical history: Before Flight, Myths & Legends, Science, Literature and Art, First Powered Flight Attempts, Vertical Take-off, Hydroplanes, and the rise of Airmail services. In addition, a stockbook of supporting aviation material includes 5 photographic proofs (Argentina 1947 Aeronautical), a further 34 colour proofs, 132 stamps, and 2 miniature sheets. Coverage is worldwide, from the earliest experimental issues to modern commemoratives, and includes numerous scarce sets, predominately unused, with condition mostly fine throughout (modern material especially fine). This is far more than a topical assembly – it is a carefully constructed thematic exhibit, rich in proofs, essays and postal history, with a strong intellectual framework and many items of standalone philatelic importance. A collection that could be re-exhibited with distinction or readily broken down into highly desirable specialist lots. *Ex. 1518	Worldwide Thematic Collection – FISH & FISHERIES, 113 Exhibition Pages An important, wide-ranging thematic collection devoted to fish and fisheries, mounted on 113 exhibition pages and previously exhibited (Seven Nations Challenge, 2016). The collection traces the development of mankind's interaction with fish from pre-philatelic letters through to modern issues, structured around themes of subsistence, trade, technological progress, and conservation. A substantial and exhibitable study, containing: 34 proofs & essays (including original artist's drawings, colour trials, die proofs, progressive plate proofs, etc.), ca. 500 stamps (mint & used, worldwide, with numerous better sets and varieties), 111 covers & postal history items (pre-stamp letters, scarce frankings, commercial usages, maritime and fishing-related cancellations, postal stationery), 32 pieces (illustrating scarce usages or cancellations),13 booklets. The material spans pre-philatelic entires to 21st-century issues, with coverage from all continents, and includes not only postage stamps but also one or two revenues and cinderellas relating to fisheries. The pages follow a carefully designed storyline: the earliest gathering of mussels on the shore, the development of nets and boats, the rise of the fishing industry and cod-liver oil production, technological change, regulation and marine research, and concluding with fish as both staple food and luxury product. The collection demonstrates an admirable mix of philatelic depth and thematic storytelling, with many items that would be competitive on their own in specialised sales, and a wealth of supporting material. The presence of so many proofs and essays ensures that this is more than a topical "gathering": it is a thematic exhibit-quality holding suitable for expansion, re-exhibition, or breaking-down into valuable single lots. Additionally, a quantity of unsorted loose material comprising; 53 covers, 54 pieces and 4 proofs. A wonderful opportunity to acquire the backbone of a major thematic exhibit on one of the most popular natural history themes. *Ex. Jørgen Jørgensen "FISHERIES".*	✉✉ △⊞ */(*) /**	**2'000**

1556	Czechoslovakia 1945-1991 Unused collection in large stockbook. Extensive collection covering the post-war period through to 1991, neatly arranged in a large stockbook. Fresh and clean with strong colours and excellent gum of those checked which are post-office quality, never hinged. Many complete sets, a quantity of miniature sheets, blocks and singles, with rich topical appeal (art, architecture, transport, animals, sports, famous personalities, etc.). Notable material includes attractive Praga issues, religious sheets, definitive and commemorative sets, plus numerous popular thematic series (mushrooms, cars, birds and more). Condition is consistently excellent, with only light duplication. A fine, substantial foundation collection of modern Czechoslovakia, seldom seen so pristine and complete. *(Photo = www)*		**	**150**

| KPK CLUB MEETING | 5 November 3 p.m. – 6 p.m. |
| Vartov, Farvergade 27B, Copenhagen |
| Special Viewing | The Jørgen Jørgensen Collection |

In connection with the KPK club meeting on 5 November, Jonas Hällström will visit Copenhagen and bring with him the auction lots from part I (**#1559–#1656**) of **The Jørgen Jørgensen Collection**. The lots will be on display at the club premises at Vartov, Farvergade 27B in Copenhagen from 3 p.m. to 6 p.m.

Mail from Denmark to Foreign Destinations during the Skilling Period 1854–1874
The Jørgen Jørgensen Collection (part I)

After completing high school and his military service, **Jørgen Jørgensen (1944–2024)** began his career with Revisons- og Forvaltnings-Institutet, later working with Schøbel & Marholt and Deloitte. He started his studies to become an accountant in 1965 and, in 1973, earned his state authorisation as a public accountant. In 2005, he celebrated his 40-year anniversary at Deloitte.

Throughout his career, Jørgen worked with major industrial and commercial companies as well as insurance and financial institutions. In the later part of his professional life, he specialised in working with energy companies. He retired shortly before his 70th birthday.

Jørgen's interest in stamp collecting began in the 1950s, inspired by his brother-in-law. In addition to collecting Danish stamps and the early Skilling adhesives, he developed an interest in topical philately (as it was then known), focusing on his leisure passion — fishing, and fish on stamps.

Photo: *Jørgen Jørgensen at World Stamp Exhibition SINGAPORE 2015 where this collection won the* ***FIP Grand Prix International****.*

A member of the Copenhagen Philatelist Club (KPK) for 50 years, his contributions to philately were extensive. He served on the KPK board as vice president, a role he also held within the Danish Philatelic Federation. He was a highly respected international FIP judge, team leader, and in 2001 served as president of the International FIP Stamp Exhibition *Hafnia 2001* in Copenhagen.

In 2009, Jørgen was elected president of FEPA (Federation of European Philatelic Associations), serving a four-year term until 2013. He received the KPK Medal in 2014 and, in 2015, proudly signed the Roll of Distinguished Philatelists (RDP) in Leeds. The following year he became an honorary member of the Danish Philatelic Federation, and in 2020 he was awarded Denmark's highest philatelic honour — the Denmark Medal.

Danish Mail to Foreign Destinations 1851–1875 was the first exhibit from Denmark of its kind, examining the different mail routes, the complex structure of rates, and their frequent changes. It earned several large gold medals internationally, including at INDONESIA 2012, THAILAND 2013, BRASILIANA 2013, and LONDON 2015. In SINGAPORE 2015, it won the Grand Prix International.

1559 1867 (April 20): Postal stationery Envelope 4 sk. red sent with the Copenhagen Foot Post **to Reykjavik Iceland** via the Icelandic Postal Department in Copenhagen, struck by "F. P." datestamp of the Footpost / fodpost, datestamp of the Copenhagen Købmagergade post office aside the indicium. Before 1 March 1870, mail from Denmark to Iceland had to be prepaid to the Icelandic Department in Copenhagen for free onward transportation to Iceland. In 1867, this onward transportation was done by the bimonthly Steamer "*Arcturus*" and this stationery is likely to have been carried on the 28 April 1867 departure, the '43' being presumably a ledger number. **One of only three recorded letters prepaid with a stamp or stationery sent to Iceland in the period before 1 March 1870.**

Postal Routes to Sweden

1560 **'Icepost' to Bornholm via Sweden**; 1860ca (March 10): Cover from Copenhagen via Sweden, presumably during the ice winter of 1860 to Nexø on Bornholm Island, bearing two single examples of 1854 dotted spandrels 4 sk. in an orange-brown and in a reddish brown shade, both from the 6th printing, delivered by the printer in June 1859, two fine and fresh adhesives in deep vivid shades with good margins, tied by '1' numeral with matching KIØBENHAVN cds and oval 'delay' datestamp of the following day alongside. The total franking of 8 sk. paid 4 sk. for the Danish part of the journey and 4 sk. for the Swedish transit via Malmø and Ystad. A very rare mailing during the ice winter of 1860, certificate Møller (2004).
Note: In the Baltic Sea ice conditions vary greatly. The annual ice cover is at its greatest between January and March, usually around the end of February/beginning of March, i.e. at the time this cover was despatched. In the period 1761-1860 ice winter severity was clearly increased corresponding to the end of the 'Little Ice Age', associated with increased variability of ice production. In 1915 C. J. H. Speerschneider from the Danish Meteorological Institute compiled alot of evidence regarding past ice conditions in Danish waters and he states for 1860: "On the 13 February the ice began in the Sundet, and on the 21 February the whole Sund was ice-filled.". 4 ✉ **250**

1561 1859 (April 9): **Double rate Cover** from Copenhagen to Stockholm, bearing 1858 wavy spandrels **8 sk. green in a horizontal strip of four,** margins from shaved to large, each adhesive tied by '1' numeral in black, matching KIØBENHAVN despatch and HELSINGBORG transit (April 10) cds's alongside. Manuscript "K.T.S." (Kongelig Tjeneste Sag) denotes an official correspondence directed abroad to the Royal Swedish Telegraph Office in Stockholm, a charming cover depicting an attractive way to pay the 32 sk. double rate to Sweden being in force between 15 July 1854 and 30 September 1865, a very scarce official mail to a foreign destination, one of **only five covers recorded in this rate**, cert. 1634 1864 (March 28): Entire letter from Copenhagen to Dunkerque, bearing 1854 dotted spandrels 8 sk. green in a strip of three, good to large margins all round, small fault at top left, tied by '1' numeral, matching KIØBENHAVN cds and red "P.D." in circle alongside as well as French "TOUR-T. LILLE" entry cds in red. Reverse with two LUEBECK transit cds's, one from the Stadtpost, the other from the Thurn & Taxis post office as well as LILLE transit and DUNKERQUE arrival (April 1) cds's. Despatched shortly after the beginning of the Danish-Prussian War with the normal rate to Dunkerque being 28 sk. between 1 April 1862 and 31 July 1865, but this letter seems to have been sent by private ship to Lübeck and re-posted at the Stadt Post Office in Lübeck due to the war. The P.D. strike and the lack of a postage due charge suggests that this letter was actually considered fully prepaid by the 24 sk., however this letter deserves some extra archival research to figure out the correct rate description. An attractive and intriguing cover with a significant pedigree, certs. Møller (2002), Nielsen (2004).

1635	1867 (Aug 26): Triple rate Envelope from Copenhagen to Bordeaux, bearing 1858 wavy spandrels 8 sk. green in combination with two 1864 oval type 3 sk. print 2 and two 16 sk. print 1 (AFA 8+12+15), the 8 sk. adhesive with large margins, several stamps with perforation imperfections, tied by '181 - SJAELL. JB.P.SP.' railway duplex datestamp, "P.D." in red and French "PRUSSE ERQUELINES" entry cds in blue alongside. Reverse with Prussian and French TPO's, PARIS transit and BORDEAUX arrival (Aug 29) cds's. As Denmark and France used different weight increments, the resulting rates being in force from 1 August 1865 to 31 January 1868 were difficult with 23 skilling for the first weight up to 7.5 grams; 34 skilling for the second weight of 7.5-15 grams; and 57 skilling for the third weight of 15-22.5 grams. This letter is franked with 46 sk., which is twice the first weight rate. Probably the sender or the postal cleck forgot that the weight progressions for the non-French and French parts were different and that higher weight class rates were not simple multiples of the first weight rate. Due to the PD handstamp not taxed in France, an interesting cover with a nice overall appearance. Cert. 1657	1851: Ferslew 2 rbs. blue, a used example with large even margins all round, tied to local entire letter by ring cancel in black with framed Footpost datestamp at left (July 2) well struck in blue. The adhesive lifted for checking and hinged back after cleansing, a rare entire, cert. Møller (2025) Mi = € 3'000. *Provenance: Collection John Jacob Engellau, Corinphila sale 65 (1981), lot 5162* *(Photo = 327)*	2/I		**400**
1658	1858: 4 sk. orange-brown, a fine large margined example used on 1860 cover to Flensburg tied by bold "31" numeral handstamp with corresponding "BAHNHOF HUSUM" cds (Aug 4) alongside. Reverse with "SLESV. P. SP. BUR. H" cds and Flensburg arrival cds (same day) in black. *(Photo = 327)*	7	✉	**100**
1659	No Lot			
1660	1868 (Aug 29): Letter from Copenhagen to St. Croix, Danish West Indies as part of the famous Heyliger correspondence bearing 1864 oval type comb perf. 3 sk. violet, 4 sk. red, and 16 sk. olive in a strip of three (AFA 13+14+15), tied by '1' numeral with matching KIØBENHAVN cds and "LONDON PAID" transit cds in red alongside, "KDOPA HAMBURG" backstamp. Sent in the 55 skilling rate to DWI via Southampton in force from 1 November 1865 to 31 Dec 1874. The perforation as usual for the 1864-issue, as always with this correspondence, a central horizontal fold and small worm holes are present not touching the stamps. An appealing cover, opinion Jensen (2004). *(Photo = 375)*	13A+ 14A+ 15A	✉	**250**

Michel — Start price in CHF

1699 1900: **Reichspost 1 - 5 Mark in ihrer Erstauflage mit weiter Linienzähnung 11½** und leicht abweichenden Farben **auf insgesamt vier Wertbriefen** aus dem Jahr 1902, alle tarifgerecht und bis auf die 1 Mk. mit weiteren Marken frankiert von HEIDELBERG bzw. FRANKFURT (MAIN) nach LUDWIGSHAFEN gelaufen. Alle farbfrischen und gut gezähnten Marken befinden sich ebenso wie die Umschläge in einwandfreier Qualität, die rückseitigen Lacksiegel wurden wie üblich entfernt. Dem seinerzeitigen hohen Porto angemessen, befinden sich alle vier Werte jeweils auf wunderschönen Wertbriefen: der 1-Mark-Wert dunkelrot als Einzelfrankatur auf Wertbrief über 4'800 Mark, die schwärzlichblaue 2-Mark-Marke in Mischfrankatur auf Wertbrief über 12'600 Mark, die violettschwarze 3-Mark-Marke in Mischfrankatur auf Wertbrief zu 18'600 Mark und die legendäre 5-Mark-Reichspost schwarz & lilarot in Mischfrankatur auf Wertbrief zu 30'300 Mark. Alle Marken sind farbfrisch, gut gezähnt und befinden sich, wie die Briefe selbst, in einwandfreier Qualität. Bei allen vier Marken handelt es sich um das jeweils einzig überhaupt bekannte Exemplar in gebrauchter Erhaltung - jedes einzelne Stück stellt für sich genommen somit eine **Spitzen-Rarität der gesamten Deutschland-Philatelie** dar. Jeder Brief rücks. signiert Ernst Stock, je doppelt attestiert Dr. Oechsner BPP (1997) sowie Jäschke-Lantelme BPP (2018).
Bemerkung: Wie auch die Pfennig-Ausgaben wurden die Markwerte vor ihrer offiziellen Einführung in einer von der späteren Massenauflage abweichenden Form abgegeben. Der Unterschied bestand im Wesentlichen in der Zähnung. Im Gegensatz zur späteren Kammzähnung 14¼ beziehungsweise 14½ wies die sehr geringe Erstauflage der Werte zu 1, 2, 3 und 5 Mark eine weite Linienzähnung von 11½ auf. Diese Marken stellen schon in ungebrauchter Erhaltung gesuchte Raritäten dar. Gebraucht oder gar auf Brief potenziert sich ihre Seltenheit. Es ist wahrscheinlich, dass die weite Zähnung, ebenso wie die bekannte fette Inschrift der Erstauflage der Pfennigwerte, als Merkmal zum unmittelbaren Fälschungsschutz eingesetzt wurde (siehe auch Michael Jäschke-Lantelme: 100 Jahre Germania, Dessau 1999; S. 14ff.). Denn mögliche Fälschungen mit weiter Zähnung wären sofort aufgefallen.
Absender / Empfänger der Briefe waren die Chemiker Dr. Richard Laiblin & Emil Kromm, die offensichtlich bei der BASF in Ludwigshafen beschäftigt waren, wenn sie nicht gerade derartige Preziosen produzierten.
Provenienz: Einzeln angeboten bei der 292. Heinrich Köhler Raritäten-Auktion (Februar 1997), als Lose 592 bis 595.

Deutschland: Sammlungen & Posten

1824	1845/2010: Konvolut mit überwiegend deutschem Material. Dabei Aktenordner mit auf Schreibpapier sauber montierten, besseren frühen Werten der Bundesrepublik. Zahlreiche Dublettenalben, teils auch mit ungebrauchtem bzw. postfrischem Material. Ergänzt durch andere Länder, darunter ein Vordruckalbum mit Marken aus aller Welt, beginnend ab 1845. *(Photo = www)*		**200**
1825	1849/1957: Nachlassposten mit zwei Teilsammlungen. Schaubek-Vordruckalbum mit Altdeutschland, teils mit gepflückten Feldchen, teils mit zusätzlichem lose beigestecktem Material. Enthalten sind u.a. auch Nebengebiete wie Abstimmungsgebiete, Danzig, Memel, Besetzungen des Ersten und Zweiten Weltkriegs sowie etwas Kolonialausgaben. Ergänzt um eine gestempelte Saar-Teilsammlung (Saargebiet und Saarland) im schon recht gut bestückten Leuchtturm-Vordruckalbum, jedoch ohne Blocks, hier alles ungeprüft und ohne Garantie. *(Photo = www)*		**300**
1826	1849/1960ca.: Sammlungskonvolut in insgesamt 9 Vordruckalben, davon 6 Schaubek und 3 mit Vordrucken in Mappen des Noltsch-Verlages, teils mehrfach geführt. Ein Album ab Altdeutschland ist reichhaltig bestückt, wenn auch in sehr unterschiedlicher Qualität. Weitere Bände mit Material in nun zumeist meist besserer Erhaltung vom Deutschen Reich, den Besetzungen und Abstimmungsgebieten, Danzig, Memel sowie den Kolonien. Ein Nachkriegsband mit u. a. mehreren Blättern Bezirkshandstempel (o. Obl.). Jeweils bis zu den mittleren Werte ausgebaut mit vielen Blocks und auch Lokalausgaben. Ungebrauchte Marken zumeist noch in älteren Zellophanhüllen eingepackt; Stichproben ergaben bei Vorkriegsmarken überwiegend Falz, Nachkriegsausgaben, wenn ungebraucht, dann meist postfrisch. *(Photo = www)*		**1'000**
1827	1849/2017: Sammlung Deutschland ab Altdeutschland in 7 KaBe-Vordruckalben gebraucht und ungebraucht, Bayern und Württemberg mit zahlreichen besseren Stücken. Auch das Deutsche Reich ist reichhaltig vertreten, u. a. mit der 5 Mark Reichspost, sämtlichen Zeppelinwerten, dem IPOSTA- sowie dem OSTROPA-Block. Weiterhin Berlin komplett, Währungsgeschädigtenblock ungebraucht und gestempelt (ohne Obligo) und Bundesrepublik gut besetzt, jeweils sauber gestempelt und die neueren Jahre mit Bedarfs-Vollstempel; dazu etwas Besatzungsausgaben, Abstimmungsgebiete, Danzig und Memel. Teilweise unterschiedliche Erhaltung, hoher Katalogwert. *(Photo = www)*		**800**
1828	1890/1990ca.: Konvolut – kleine Schachtel mit vielfältigem Belegmaterial, darunter mehrere interessante Infla-Briefe. Briefalbum mit Karten und Briefen, u. a. mit 'Gebühr bezahlt'-Vermerken, älteren Ansichtskarten, Posthörnchenaufdrucken auf Belegen sowie Satzbriefen. Weiteres Briefalbum mit moderneren Satzbriefen. Sammlung Bundesrepublik 1949–1970, bis auf zwei Werte des Briefmarken-Jubiläumssatzes von 1949 komplett, im Vordruckalbum. Einsteckbuch mit Kehrdrucken und Zwischenstegen des Deutschen Reiches, gestempelt. Jumbo-Album mit überwiegend Briefstücken, meist mit Sonderstempeln des Deutschen Reiches, dazu etwas besetzte Gebiete; vielfältiges Material, oftmals bessere Werte, darunter drei Olympiadeblocks. Schliesslich ein Album mit gemischtem Material aus verschiedenen deutschen Sammelgebieten, teils mit Spezialitäten wie Randstücken oder Abarten; unterschiedlich erhalten. Interessanter originaler Bestand. *(Photo = www)*		**300**

Reverse with a 'Magoh' and 'St. Gengoux-le Royal' arrival cds. dated 4 November 1870. Small corner fault lower right of entire and light vertical filing fold, well clear of adhesive. The rare 'Bureau de Dépèche Officille ou de Service-Official Message' (229 x 159 mm.), black on yellow thin paper, is sent from Angers, where Louis Joseph Ernest Cézanne, the passenger on the Fulton balloon, immediately sent a message to Tours, which reads: "*Arrived by balloon from Paris. Health is good. Will arrive at Tours tonight. Telegraph Marguerite"* (his wife). The message arrived the same day and was datestamped 'Tours' 2 November 1870. Has been folded vertically in two places, one with a slit and a horizontally crease at base. Very rare Official Message from the corresponding balloon flight sent by the passenger. The only Official Message by a Ballon Monté passenger currently known. *Note: The Fulton took-off from Paris at 8:30 am. on 2 November 1870, the pilot was Le Gloarnec, sailor of the marines, his passenger Ernest Cézanne, Engineer of Bridges. They carried four mail bags. They landed safely in an unoccupied zone after enduring severe cold for 6 hours, landing north-west of Chalet, 290km south-east from Paris. They were taken to nearby Angers by locals and then onto Tours the seat of the Government in exile, arriving 3 November at 2 am. The pilot Le Gloarnec died a few days later from pneumonia.* *Ex. THE EXTRAORDINARY CHARM OF PHILATELY

A Northern Flight

Devlan Kruck
Huddersfield, (United Kingdom)

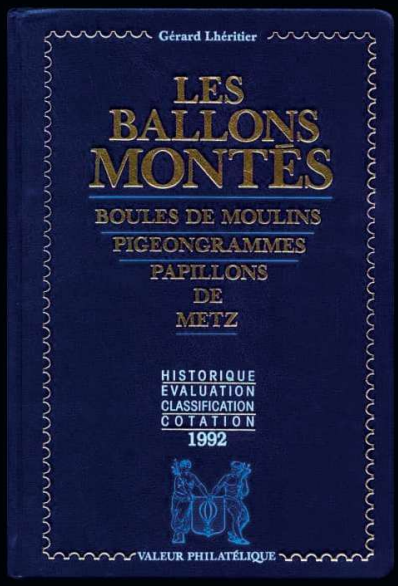

Benjamin Franklin, namesake of the balloon Franklin (launched 27 November 1870), honoured as a statesman, scientist, and the first U.S. Postmaster General.

The Franklin Balloon to Copenhagen

In the cold, pinched days of December 1870, Paris was no longer merely a city. It had become a fortress. Encircled by the iron clamp of the Prussian siege, the French capital lay half-starved, its people hemmed in by cannon and bayonet. The boulevards echoed not with gaiety but with hunger. Horses vanished from the streets to the butcher's blocks, and eventually even the menagerie of the Jardin des Plantes found its way into pots. Yet for all the privations that winter, it was not food alone that Parisians craved. It was connection. For a people who had so long prided themselves on their cosmopolitan ties, the true agony of the siege was silence, the enforced muteness between a city and the wider world. Ordinary letters, news sheets, scraps of communication that stitched families, lovers, and commerce together. All were halted at the city's gates. And so, with the earth barred, Paris looked upwards. It was among the clouds that salvation was contrived.

Contemporary photograph of a Ballon Monté on the streets of Paris — a vital lifeline for communication during the Franco-Prussian War siege.

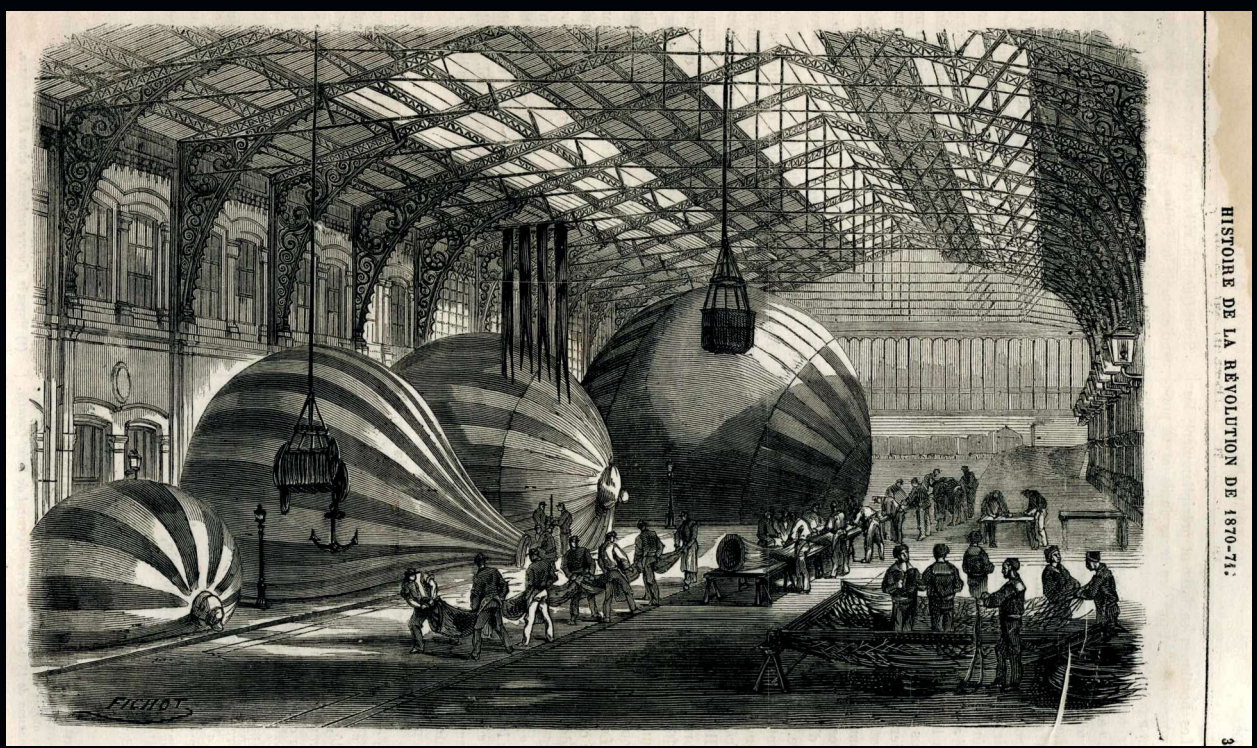

Book cover of Gérard Lhéritier's 1992 reference on Ballons Montés, Boules de Moulins, and siege communications — an essential handbook for collectors and postal historians.

Engraving of the balloon workshop at the Gare d'Orléans, Paris, where siege balloons were sewn and inflated to maintain postal links with the outside world.

The Ballons Montés

The "Ballons Montés" - literally, "balloons mounted" with mail - became the fragile lifeline of the besieged capital. Conceived in desperation but executed with brilliance, these aerial couriers carried not only dispatches of war but the hopes and whispers of a population yearning to be heard. From September 1870 to January 1871, more than sixty such craft rose into the cold air, buffeted by winds they could not steer, entrusted to currents they could not control. They were soap bubbles against the enormity of the Prussian blockade, yet each flight was an act of defiance, a floating declaration that Paris would not be silenced. Among this unlikely fleet was Balloon No. 38: the Franklin. Its name was chosen with deliberation, invoking Benjamin Franklin, the American polymath who had once served as minister to France and dabbled in the sciences of electricity and flight. The association was apt: Franklin himself had mused on the possibilities of balloon navigation after witnessing the Montgolfiers' ascents in the 1780s. Now, in Paris's darkest hour, his name was harnessed for an enterprise equal parts science, desperation, and faith. On December 5, 1870, the Franklin took flight, lifting from the gasworks at Montmartre with its wicker gondola crammed full of newspapers, official dispatches, and, most poignantly, private letters. It was one such piece of correspondence, outwardly ordinary but inwardly remarkable, that has since secured a place not merely in collections but in the mythology of siege postal history.

A Letter Bound North

The cover in question is franked with a single 30 centime Napoléon Lauré brown, the ubiquitous stamp of the time, its laureated effigy almost regal against the plainness of the folded sheet it secures. The adhesive is neatly tied by the Paris Star cancel, complemented by a Rue St. Dominique circular date stamp, like a perfect Parisian echo. A bright red boxed "PD" (Payé à Destination) proclaims its journey fully prepaid. And on the reverse, like the last word in a poem, sits the Copenhagen arrival mark of December 12, 1870. Thus, the letter made its way, not just beyond the Prussian lines but across the breadth of northern Europe, arriving after its aerial leap in Denmark, which is a destination rarely, almost never, seen in the balloon post archives. More astonishing still, the letter was not addressed to some anonymous bourgeois, but to a figure of considerable renown: Abraham Wolff, Chief Rabbi of Copenhagen. Rabbi Wolff (1810–1891) was no obscure provincial cleric but a moderniser of Jewish life in Denmark, a man who translated prayers into Danish and helped fashion a more contemporary Judaism for the Scandinavian community. That he should be a recipient of balloon post adds an unexpected richness: a link between besieged Paris and reformist Copenhagen, stitched together by nothing more than paper, ink, gum, and gasbag.

A rare surviving cover flown by the Ballon Monté Franklin, franked 30c Empire Lauré, addressed to Copenhagen — evidence of international mail escaping Paris under siege. (i)

Surviving entire which was a copy of La Cloche, no. 10, dated November 30, 1870.

A Survivor of Ordeal

Like so many balloon covers, this survivor bears the wounds of its ordeal. Its corners are worn, the adhesive shows a trimmed perforation at the base, and there is light soiling from its voyage. Yet these blemishes are less defects than medals of honour. They are the physical memory of its hazardous passage: borne aloft into hostile skies, dropped beyond the enemy lines, ferried across borders, sorted and handled until it found its way north. That it reached its rabbinical recipient at all is near miraculous. It is, to the best of current knowledge, the only recorded example of balloon mail from La Cloche newspaper addressed to Denmark. In the massive catalogue of balloon post, which runs thick with destinations to provincial France or allied nations such as Belgium and Britain, Copenhagen appears as an outlier - a rarity at the edge of the map. No wonder, then, that the cover is prized. Certified by Calves in 1996, it is listed in the Maury catalogue at over €12,000. But to value it purely in currency is to miss the greater truth: this is an artefact not of paper alone, but of human determination. It is a whisper from December 1870, pressed across time, bearing witness to the tenacity of communication.

The Human Story behind the Stamp

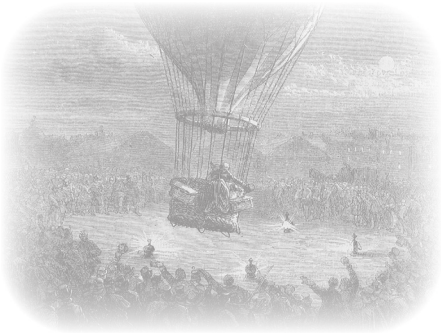

What, we might ask, did Rabbi Wolff think when he received it? Did he marvel at the daring of the balloonists? Did he smile at the very notion that a besieged city had found a way to defy silence? Or did he simply unfold the newspaper within, seeking news of the French capital, news of colleagues or friends? That we do not know. But philately has always thrived on such mysteries which are the tension between the mute object and the human lives it once animated. In this case, a 30-centime brown speaks across the ages, not only of the Franco-Prussian War but of the universal impulse to reach out, to bridge separation, to remain connected.

This, in essence, is the charm of philately. Not merely the paper, ink, and gum, but the narrative freighted upon them. A cover becomes a witness to history, a letter transforms into an artefact, and a stamp is no longer just a portrait of Napoleon but a key to understanding resilience, ingenuity, and even faith. The Franklin's letter to Copenhagen is a reminder that communication, however fragile, is a fundamental human need. In moments of crisis, we turn to the written word not just to inform but to reassure, to assert that we exist, that we endure, that we are not forgotten. And so, the Parisian balloon mail, as improbable as it was, answered a profound yearning. Today, when digital communication renders distance almost invisible, one might think such artefacts quaint. Yet to hold this cover in one's hands, to trace the cancellation, to see the inked "PD" and the Danish arrival, is to feel anew the urgency of that December flight. It is to be reminded that communication was once costly, dangerous, and uncertain; and that those uncertainties imbue every surviving piece with drama.

Epilogue: References and Observations

Balloon post from the Siege of Paris has been extensively catalogued, most notably in the works of J. S. Davis (The Siege of Paris 1870–1871: Balloons, Postal History, and Philately) and in the Maury catalogue. Yet each newly surfaced destination, particularly one as rare as Denmark, adds nuance to the story. Technically, the Franklin's flight was relatively straightforward: launched on 5 December, it landed outside the siege lines near Dreux, from where its mail was gathered and distributed onward. But the singularity of this Copenhagen letter transforms routine into marvel. In a mass of correspondence, one cover alone threaded its way to Scandinavia, bearing the imprint of war, resilience, and the human desire for connection. That is why philately matters. Not because it amasses paper curiosities, but because each piece is a vessel of story, like a fragment of history preserved in miniature. The charm of philately lies precisely in this: that through a stamp, a cancel, a faint arrival mark, we are able to recover not only facts but emotions, not only routes but human voices. The Franklin's northern flight is thus more than postal history. It is a reminder that even in the darkest winters, against the external forces and odds, people found ways to speak, and to be heard.

French Andorra

1966	Andorra 1929/38: Age-old collection, somewhat moisture-affected, nevertheless of considerable substance. Includes the first set of French Andorra, present 10 times: arranged as 2 blocks of four and 2 singles, all on piece and all cancelled with first day postmarks. The same applies to the first two issues of postage due stamps but 15 per times. The second set of unoverprinted definitives is largely complete (a few low values missing), also present in multiples totalling 10 stamps in the same manner as the first set. The third set is contained unused; the stamps are affixed to the album pages and therefore not counted. Likewise, the unused postage due stamps and some surplus quantities have not been included in the total. Still, the catalogue value reaches € 24'800. Towards the end of the album are further postage dues and covers franked with postage dues (all covers from France), catalogue € 3'930 (prices only for used applied). Also present: the first issue of Spanish Andorra, in used pairs, and the following sets as singles on a paper leaf, catalogue €1'900. The unused Spanish issues are partly stuck and have not been counted; the 4 P. and 10 P. exist in blocks of four, with two stamps mounted and two unmounted each. In total, the collection reaches a catalogue value of €29'830++. Noteworthy are various specialities, e.g. blocks of four frequently from the lower sheet corners. *(Photo = www)*			**1'500**

2023	1878-1900: Queen consort of Italy Margherita of Savoy, signed autograph letter, 4 pages, addressed to an unidentified commander, elegantly penned on cream stationery, the Queen expresses her heartfelt gratitude for the books he had sent her, remarking on the pleasure and diversion they provided during her time of seclusion: 'La ringrazio infinitamente, Signor Commendatore, dei libri che S. mi ha mandato. Sono distrattivi, aprirli mi ha fatto molto piacere.' The letter closes with a revealing and intimate passage, in which she conveys her hope that they might meet in the Library the following month, should she be able to leave her present confinement. This correspondence offers a rare glimpse into the private world of Queen Margherita, whose refined education, literary sensibilities, and role as a patroness of the arts made her one of the most admired European royal figures of her age. An elegant and historically significant autograph letter from Italy's first Queen consort, combining literary appreciation with personal candor. 2072 1810 (Sept. 14): Entire letter written from Dobrota near Kotor to Venice, pre-paid "*10 D*" (Décimes) French postage denoted in manuscript on reverse and struck with very fine "P.P. / CATTARO / ILLYRIE" (Müller 216c=400 Points) in red with indistinct Venice arrival on reverse, where charged a further "*40*" decimi Italian postage to be paid by the recipient. A scarce and tremendously appealing entire. ✉ **500**

2073 1810 (Sept 13): Entire letter from the Government Commissioner for the Province of Cattaro adressed to the "*Commissario Generale di Polizia del Dipartimento dell Adriatico*" in Venice, struck with very fine "CATTARO / ILLYRIE" in red (Müller 216b=280 Points) with "R. A. DELEGANZ.E PROVIN- / CIALE DI CATTARO" cachet in black at lower left and negative "CORLINI REG. DELEGATO COB..." (unlisted by Reinhardt) on reverse. Sent unpaid and charged '*60*' decimi to pay in manuscript on receipt with "VENEZIA / 10 OTT" arival on reverse. A choice and interesting entire.
Note: The letter informs the Commissioner of Police for the Dipartimento del Adriatico in the Napoleonic Kingdom of Italy of the escape of one Milos Abradovich, accused of "importanti contrabandi e altre politiche trasgressioni", after deceiving the guards at the Lazaret where he had been detained and asks for assistance in his arrest. *(Photo = 457)* ✉ **300**

2077 **Austro-Turkish Courrier Service** 1870 (December 30): Cover from Scutari (Shkodër, Albania) via Antivari (Bar, Montenegro) to Venice bearing Ottoman Empire, 1869 Duloz 20 pa. green, Type III, perf. 13¼ in a vertical pair, cancelled by neat strike of all arabic double-circle 'Scutari' handstamp in black (Coles & Walker fig. 3, Tchilinghirian fig. 498) and Austrian Levant, 1867 Coarse Whiskers 5 s. red, a vertical pair and strip of three, these clearly tied by three strikes of "ANTIVARI 30 / 11" cds. in the characteristic brownish-black shade of ink with black "P.D" at centre, Trieste transit (5 Dec.) and arrival cds (6 Dec.) on reverse. Correctly prepaid 1 pi. for the Austro-Turkish courrier service from Scutari to Antivari, 10 soldi reduced, unified rate for letters from Albania and the Danube Principalities to the 'Küstenland' ports and 15 soldi letter rate to Italy according to the 1867 postal convention. A spectacular and outstandingly attractive Austro-Turkish courrier service combination cover. Signed E. Diena. Cert. Ferchenbauer (2020) Ferchenbauer= € 8'000.
Note: The Austrian Consulate at Scutari had begun operating a Courier Service to Antivari by 1864 at the latest, for which mail had to be pre-paid using Austrian stamps. When the service was to be turned into a full Consular Post Office in 1867 it is thought that this raised Turkish protests leading to the establishment of a joint Austro-Turkish Courier Service escorted by Ottoman Soldiers and an Austrian diplomatic official. Postage to Antivari had to be paid by use of Ottoman adhesives, anything beyond that in Austrian stamps. It is believed this solution would have placated Turkish fears of their postal authority being undermined whilst allowing the Austrian Consulate and it's customers to avoid relying entirely on a notoriously inefficient Ottoman Post Office.

Correctly pre-paid for a double weight letter at twice the 10 soldi unitary rate for letters from Albania and the Danube Principalities. A fresh and fine cover with this tremendously rare postmark. *Note: When the independence of the Principality of Montenegro was internationally recognized by the Treaty of Berlin in 1878 the new state was to receive control of the port of Antivari (Bar) and nearby Ulcinj (Dulcigno). The Ottoman Empire however initially refused to relinquish control of Ulcinj and did so only after diplomatic intervention from the European signatories of the treaty and a naval show of force off the turkish coast. On 30 November 1880 Ulcinj was ceded to Montenegro. Reflecting these events, the Austrian P.O. at Antivari was closed in mid 1879 and an Austrian Lloyd Postal Agency opened in Ulcinj, which in turn was moved to San Giovanni di Medua in Ottoman Albania in summer 1880. Thus the tiny port of San Giovanni became the main outlet of mail from Scutari, with the Austrian Consulate at Scutari sending all it's own mail through the agency before the reopening of a Consular P.O. in 1901.* *Provenance: Corinphila sale 182, September 2013, Lot 1336.* *(Photo = 463)*	4	✉	**300**

Øistein Bøe was born on 8 April 1962 in Tønsberg, Norway. In 1982, Øistein started his academic studies in science at the University in Bergen and achieved a Major in applied mathematics in 1987, and subsequently his PhD in 1990. He started working in the oil and gas division of 'Norsk Hydro', where he met his wife Unni. They married in 1994. Two girls were born, Inga Beate in 1995 and Ragnhild Marie in 1998.

Øistein's hobbies since childhood have been orienteering and running, playing piano as well as stamp collecting. He received a Norwegian stamp album from his father at the age of eight. His grandfather had been a postmaster and had collected various stamps and covers during his whole active work life. Øistein's interest in stamps developed and increased and he stumbled over e-Bay in early 2000 and saw the online capabilities to buy and sell stamps without spending too much time.

Øistein has developed this local postal history collection and discovered the Postal History philatelic discipline generally. His grandfather also had performed postal duty on postal steamers, and from the collection he inherited some letters destined to Sognefjorden. Øistein became interested in the postal history of this area and started this collection. He now feels after 20 years that the collection has reached its full potential and the beautiful material should be offered to switch hands!

2140 The Bergen-Christiania and Bergen-Molde routes; 1733 (Dec 8): Entire letter from Bergen to Leith, United Kingdom, noted received on 12 February 1734. A faint manuscript '1' at top left may be the bill number from Bergen to Christiania. Postal markings are lacking leaving the route open for discussion with the possibility of travelling on a merchant ship to Leith or some other harbour in Great Britain or alternatively routing on the Bergen - Christiania weekly post which departed on the day of despatch. Independent of the route chosen this is the earliest recorded letter sent abroad from Bergen proving the slow mail connections towards Europe and in particular Great Britain at that time.
Note: The sender was James Wallace, from Banff in Scotland who served as a merchant burgess of Bergen from 4 December 1727. It is directed to William Caldwell, a merchant in Leith from 1720 to 1734. ✉ **200**

D/S 'Constitutionen' at the harbour of Arendal

2155 1845 (Aug 25): Official Entire letter from the Ministry of Finance, Trade & Customs of the Royal Norwegian Government in Christiania and directed to Bergen, reverse with bill number "*101*", making its journey first on the Christiania-Bergen route up to Lærdal where it arrived on 29 August and from where it was sent onward with steamer "**D/S Constitutione**n" towards its destination.
Note: The "D/S Constitutionen" was a paddle steamer constructed in England and imported as the first steamer in Norway at all in 1826. It was first used between Christiania to Christiansand, then further to Bergen and finally further to the north. In the summer of the years 1843/45 it served the route in the Sognefjord between Bergen and Lærdal. ✉ **300**

D/S 'Bjørgvin'

2158 1852 (July 9): Fully prepaid Envelope from Lærdal with the steamer Bjørgvin to Bergen and from there further via Farsund to Lyngdal, endorsed on top with "*Med Bjørgvin til Bergen*" and manuscript note "*Betalt*", struck in transit by crisp "BERGEN 9/7 1852" and fair "FARSUND 13/7 1852". This is the only known letter with an endorsement related to the service of the D/S Bjørgvin on the Sognefjord.
Note: The D/S Bjørgvin was bought in 1840 from England by a private consortium. It had only a 35 horsepower engine and sailed in the years 1848 until 1854 from late spring to early autumn of the year on the Bergen - Lærdal route along the Sognefjord. Tear in top of second stamp from left, perforation irregularities due to the stamp's position nearby the edge of the cover, two horizontal filing folds away from the franking, nevertheless an appealing presentation of the 38 skilling single rate via Germany to the United Kingdom. *Note: An all year regular steamer route was established from 7 December 1858 by the Nordre Bergenhus Dampskipsekskab (Nordre Bergenhus steamer company). Two ships the DS Framnæs and the D/S Fjalir served this route with the D/S Framnæs built by Alexander Denny, Dumbarton in Scotland arriving in Bergen on 27 November 1858. D/S Framnæs was broken up in 1951 serving for 93 years, it was then the Norwegian steamship with the longest service. In these years the ship was of course rebuild several times, it was grounded in total six times, the last time in 1944 during an attack by British aircraft in Frøysjøen.*	3+5 ✉	**1'000**

2210	1855/1990ca.: Norway – Fine old-style collection starting with Number One, fairly complete; stockbook with a large proportion of classic issues, roughly presorted; another stockbook with duplication plus some material on stockcards; also including covers, booklets, etc. up to the modern period. Sweden – Some album pages noted, with better pairs observed, e.g. with pairs from the 1939 Linné issue, which carry a quite substantial catalogue value plus so more modern covers FDCs etc. *(Photo = www)*			**300**
2211	Advanced Collection on 21 Pages. A valuable, well-formed collection ranging from classic issues to modern, housed on 21 album pages. Early material predominantly used, including first issues (Skilling values, Posthorns, Haakon), followed by an extensive run of later issues mostly unused hinged or never hinged. Noted better items such as high-value Posthorns, Haakon VII and Olav issues, Nansen semi-postals, "V" overprints, officials, and strong back-of-the-book with postage dues and Offentlig sak. A clean, chiefly unused collection offering considerable catalogue value and excellent scope for continuation. Michel = € 14'800. *(Photo = www)*		⊞*/ (*)/**	**1'500**

The Eddie Leibu Collection (part I)

EUROPHILEX 2015	(FEPA)	London	Gold Medal	
NOTOS 2015	(FEPA)	Athens	Large Gold Medal	+ special prize
THAILAND 2018		(FIP)	Bangkok	Large Gold Medal + special prize Candidate for the Grand Prix International

Eddie Leibu, was born in Bucharest on 26 March 1947. Eddie‘s parents were holocaust survivors and he was their only child. At the age of three, the family immigrated to the young state of Israel, starting a new chapter of their life. They settled at first in a new immigrant neighbourhood near Haifa, then, in 1958 they moved to the city of Haifa where his father operated his own business of Dental supplies. While the Leibu family adapted to their new life in Israel, Romanian culture remained present in the family home through different forms, such as; music, poems, literature and tales of Romanian history.

After graduating High school, Eddie served in the army for three years. Following the compulsory military service, he studied dental medicine at the Hebrew University Dental School in Jerusalem from 1968 until 1974. After graduation he held a position for some years at the Maxillo-Facial surgery department, at the central hospital in Haifa. In 1986 Eddie started his own private dental practice. Eddie is married to Rina, who accompanies him to many of the philatelic commitments he undertakes frequently. Together they have raised three boys and now have four grand-children.

During the period of Eddie´s childhood, stamp collecting was an integral part of almost every young child’s life and Eddie was no exception. His stamp collecting was encouraged by his father, who bought for his collection all the new issues from Israel. Eddie´s interest in stamps somewhat diminished during his years at High school. At that time in his life it was competitive basketball which grabbed his attention. It was later, during the short interval between his days in the army and his studies at the Hebrew University Dental School, he returned to his stamp collection and philately became an important part of his life.

While structuring, organising, and studying his stamps, to fill the spaces he found in the collection, Eddie turned to the stamp market, consulting dealers and attending stamp auctions. He suddenly met other fellow philatelists from the community, where he was introduced to organized philately becoming a member of the Haifa Philatelic Club. Many of the members of the club in those days were of the older generation, being immigrants from Europe who collected stamps from the classic period. Eddie‘s interaction with them was a learning experience and an introduction to the classic era in philately. Once Eddie had completed a catalogue collection of stamps from Israel, he was looking for a path to follow going forward.

In 1996 Eddie returned to Romania for the first time. It was at the occasion of a bi-national Israeli-Romanian stamp exhibition. There he came in close contact with Romanian philately and held lengthy discussions about its many facets and its richness with the veteran doyens of Romanian philately, Kiriac Dragomir and Marco Martin. Following the trip, his attraction to Romanian philately amplified. As a result, he embarked on developing a collection presenting various aspects of Romanian postal history, namely the foreign post offices as well as the Romanian Post. This collection is what this sale is about: ***Romania Outbound Mail – From the Crimean War to the UPU, 1853-1875***.

The introduction to the collection

Romanian philately from the classic period is famous for the first issue of Moldavia – the legendary "Bull's Head" stamps. However, the early philately from Romania has many more fascinating chapters to offer: Military occupations, foreign post offices (Austrian, Hungarian, Russian, Greek and French), fluvial and maritime mail services and the early international postal links established by the Romanian post. Each theme has its own story to tell and important key items exist for each theme, of which some are rarities. These postal history themes form the chapters in the collection.

At the outbreak of the Crimean War, the Romanian economy was underdeveloped relative to countries of Central and Western Europe. Simple agriculture formed the basis of the economy and society in Romania. Infrastructure in the country was poor and the vast majority of the population were illiterate. These factors explain the very low volume of outgoing mail to foreign destinations, compared to the volume from other countries in Europe of the time.

The early period of Postal history relates to the Danubian Principalities, Wallachia and Moldavia, which were under Ottoman sovereignty. Under the capitulation agreements, foreign post offices were operating in Ottoman lands. The treaty of Paris, ending the Crimean War, gave full autonomy to the principalities. This coincided with growing interests of foreign powers in the region that have slowly raised the economic status and commercial activity of the principalities, which united "De Facto" in 1859 and "De Jure" in 1861.

This exhibit shows mail sent through nine different postal organisations. Foreign postal offices were the providers of the international postal services during most of the period covered. The most extensive part of the exhibit is dedicated to mail sent by the foreign postal services. The last part shows mail sent by the Romanian post.

The Austrian Post offices

The Austrian post was by far the most dominant, handling the vast majority of foreign mail. This was due to its efficiency and relatively extensive network of offices throughout the country, Austria's geo-strategic position and able assistance of the DDSG and Austrian L'loyd.

Military post offices

In 1854 Romania had been occupied by a Neutral Austrian force. The retreating Russians had to close down their post offices and the Austrian Military Post became the sole provider of foreign postal services. Military post offices had been opened in strategic localities, serving the army and civilian needs. The Austrian military post offices were supplied with the stamps of the Austrian 1850/54 issue, thus bringing postage stamps for the first time to east Europe. Letters from a number of these offices bear some of the rarest cancellations recorded on Austria's first issue.

Consular post office

With the withdrawal of the Austrian Army in 1957 consular post offices were re-established. During the first years after the war postage stamps were not supplied to these offices; letters had to be sent stampless, as in all other levant offices. In April 1864 the offices were supplied with the stamps of Austrian Italy, with value in "soldi".

The exhibit shows the network of offices throughout the country, emphasizing the "Philatelic" period. Stamps were supplied to 12 post offices. Today franked covers are known originating from 11 out of the 12 offices. For the first time franked letters from all these 11 offices are shown in one collection. Included are covers from **Berlad** (four covers known), **Fokschan** (3 covers known) and the only recorded cover from **Roman**. Another interesting subject in this chapter are the rates. Shown are rates to various destinations, with low frankings on printed matter items on one hand and heavy frankings on multiple weight items on the other.

Hungarian post

With the creation in 1867 of the dualistic structure of Austro-Hungary, six of the twelve post offices were transferred to the newly created Hungarian post. A transition period followed until the 1867 issue was supplied. Some 200 covers of the Hungarian post have survived. Shown are combination covers, important rates and the Plojesti red postmark. The Hungarian and Austrian offices closed down on 31st April 1869 according to the treaty enabling the Romanian post to start its international service.

DDSG post

The company operated on the Danube River, the most important communication artery of the region. In 1866 it reorganized its postal service and issued stamps. Only a very small fraction of DDSG surviving letters were mailed from Romania to other countries – the subject of this collection. Combination covers with Austrian and Hungarian stamps, as well as letters postmarked by steamboat cancellations merit mentioning.

Russian post

The Russian post offices had to close down with the withdrawal of their army in 1854. Russian offices were gradually re-established after the war in Bucharest, Jassy and Galatz but the volume of mail carried remained very low.

Greek post

Offices were established in Braila, Bucharest (1857) and Galatz. The activity of the Greek post proved unprofitable and the offices had to close down after a short period. Today up to ten covers are believed to exist.

French Post

With the growing interest of West Europe in the region following the Crimean war, France opened offices in Galatz and Braila in November 1857, soon after the inauguration of the French "Danube" shipping line in the Black Sea. The obliterators used were at first of the "Petit Chifres" type ("4008" for Galatz, "4009" for Ibraila), replaced during 1862 by the "Gross Chifres" type ("5085" & "5089" resp.). The "4009" obliterator on cover front presents one of the highest challenges in Romania's postal history and French Levant collecting fields.

The Romanian Post

On 1st April 1869 began its foreign postal service based on a bi-lateral convention with Austro-Hungary that enabled service to third party countries. Special lithographed stamps were issued for this purpose. Several additional issues followed, amongst them an emergency issue caused by the delay in the supply of the typographed issue printed in France due to the Franco-Prussian war. The 50 bani of the emergency issue, used for a few weeks only, is a rarity on cover.

A parallel convention with the North German confederation came into effect on 1st July 1869, but it appears that this route was hardly used, although some of the postal rates were lower than that of the convention with Austria.

Almost every recorded destination is shown. Romanian mail to foreign destinations during this period shows special rates, uncommon destinations and interesting frankings. Romania was a founding member of the GPU (later UPU) and joined on its first day, 1st July 1875.

In Athen 2015, at the palmares night of NOTOS 2015, Eddie wins his first Large Gold medal together with a special prize for this collection. The awards were presented to Eddie by Costas Chazapis, who was the head of the organizing committee.

2353	1870 (Nov 11): Cover from Bucharest to Langnau, Switzerland, bearing 1869 Prince Carol 'without beard' 10 bani blue and 25 bani orange & blue, fine margined examples, tied by early usage of the BUCURESCI thimble datestamp struck in black (Kiriac fig. 488). Framed 'P.D.' alongside and reverse with WIEN and BURGDORF transit cds's as well as LANGNAU arrival cds (Nov 17). The weiterfranco of '*10*' kreuzer beyond Romania was noted in red crayon on front, changed into '4' (kreuzer) for Switzerland by the Austrian office. A most attractive cover from a well-known correspondence to a cheese dealer in the Emmental in Switzerland. Illustrated in Edition d'Or volume 72 on page 140, cert. Heimbüchler (2006). *Note: Following the Romanian - Austrian Postal convention of 24 July 1868, coming into force on 1 April 1869 mail abroad including transit mail could be conveyed from Romanian offices. The rate to Switzerland was 10 bani for Romania, 6 kreuzer (= 15 bani) for Austria and 4 kreuzer (= 10 bani) for Switzerland.* *Provenance: Corinphila sale 191 (November 2014), lot 1472.*	22a+ 24	✉	**300**

2379	Romanian Royalty – Extraordinary Group of three Autographed letters with original envelopes. Signed by Queen Elisabeta of Romania (1843–1916), Queen Marie of Romania (1875–1938), and King Ferdinand I of Romania (1865–1927). A remarkable and historically significant trio of autograph letters, each accompanied by its original postal cover, all addressed to Madame Marie Greciano in Italy. Together, these items provide a rare glimpse into the private correspondence of three of Romania’s most important royal figures at the turn of the 20th century. 1. Letter from Queen Elisabeta of Wied ("Carmen Sylva"), wife of King Carol I postmarked 27 June 1900, Bucharest – Palat Regal with fine strikes of the royal cancellation. Written in French and signed Elisabeth. The content is deeply personal, reflecting her characteristically emotional and poetic style. Elisabeta (better known by her literary pseudonym Carmen Sylva) was a noted writer and intellectual, and this letter captures her intimate voice of compassion and sentiment. 2. Letter from Princess (later Queen) Marie of Edinburgh, wife of Ferdinand I postmarked 22 July 1900, Castel Pelesch (her favored royal residence in Sinaia). Written in French and signed Marie. The letter conveys warm and personal sentiments, with characteristic vivacity. Marie of Edinburgh, granddaughter of Queen Victoria and Tsar Alexander II, would go on to become one of the most beloved and influential queens of Europe, celebrated for her diplomacy, beauty, and wartime leadership during World War I. 3. Letter from Crown Prince Ferdinand (later King Ferdinand I of Romania) postmarked 2 February 1900, Bucharest – Palat Regal, registered cover. Written in French and signed Ferdinand. The tone is courteous and considerate, offering words of condolence. Ferdinand, who would later ascend the throne in 1914, guided Romania through the First World War, greatly expanding the nation’s territory in the aftermath. Unique convergence of three royal voices in a single year. *(Photo = www)*		✉	**500**

Spanish Andorra

2437	1803 (March.10): Early entire letter from Andorra written by Josep Fornells addressed to Francisco Satorras in Calaf (Province of Barçelona). Text written in Catalan with interesting content: "After greeting your representative, I carried out the task you entrusted me with, which was to collect the payment letters, and he replied that the remaining amount was 884 reales and 20 diners, which he would not deliver to me, but rather collect in Puigcerdà." Fine and very early example of the merchant's postal service carried in bags by TRAGINERS and their mules or horses, to compete with the official mail for the lowest price. A rare entire. *(Photo = 567)*		✉	**1'500**

2440	1872: Cover to Hong Kong, China, via England, franked with Coat of Arms 50 öre rose-red, two singles, together with Lion 20 öre red, making up the correct 120 öre rate to China. The adhesives are tied by STOCKHOLM 8.3.1872 cds., with red transit LONDON PAID 13 MR 72 and "1d" red handstamp alongside, together with framed FRANCO handstamp in black and the blue oval cachet of 'Joh. Sam. Billing & Son, Stockholm'. Reverse, arrival double ring cds. in black HONG KONG MARINE SORTING AP 23 72. Horizontal filing crease through lower 50 öre. Cover has been improved, including repairs to the adhesives, enhanced postmarks, the 50 öre shows margin faults and repairs. Despite these alterations, FACIT records this as the only cover known franked at this rate for China, making it a great rarity of Swedish classic postal history to the Far East. 2445	1765-18233: Two covers bearing pigeon feathers encapsulated within the wax seals. First item a wrapper sent to Perna, Finland (was under Swedish rule until 1806 now part of Loviisa, Finland), addressed "kronorbefallningsmannen" (Crown-order-Man), Noble and esteemed Mister Elias Malmestedt, who lived in the Manor Tjusterby (1723-1789), dated 9 August 1765, with manuscript marking of 'three crowns' with horizontal line indicating 'Crown Mail'. Reverse, there is a brown pigeon feather within the wax seal, which symbolised that the letter must "fly" at the highest speed. Second item a 1833 wrapper sent from Höjentorp to Abrahamstorp near Hjo', addressed to the district police superintendent 'C. Carlberg', from Frans Gallander of Stohlan, the 'Kronofogte' (Crown Baliff) at the tax collector's office, with message: "*About artillery horses. Must be forwarded by riding crown postman under penalty law. Leaving Stohlan on 1 April 1833 at 1 o'clock in afternoon*". Reverse with red wax seal and white pigeon feather inserted. Under the feather is a message reads: *"Arrived at 12 o'clock noon 2 April and forwarded at once, Carlberg."* Soiling, although most presentable. Nice combination. **Ex. Ottoman Posts in Lebanon

The Late Bob Stuchell Large Gold Medal Collection

The Bob Stuchell Collections
Ottoman Post in Lebanon | Ottoman Post in the Lost Territories of Europe | Ottoman Post in the Arab Territories | Ottoman Empire Prisoner of War Mail

Robert Wade Stuchell (1936–2025) was a distinguished chemical engineer and a devoted philatelist with a particular passion for the postal history of the Ottoman Empire. He graduated with honors from Brooklyn Polytechnic Institute and earned his Master's degree in Chemical Engineering from New York University. Over the course of his accomplished career, he held key positions at FMC Corporation, Elf Atochem, and CDF Chimie, contributing significantly to the field of industrial chemistry. Bob was a father of three children whom he loved dearly.

Philately was a lifelong passion for Bob, beginning in his teenage years. He initially focused on stamps from the United States, Central America, and South America, but in the 1960s he turned his attention to the postmarks of Ottoman Empire post offices—a field that was scarcely explored in the United States at the time. Over the following decades, Bob assembled exceptional collections of postmarks from the lost territories of the Ottoman Empire, distinguished by their depth, rarity, and historical significance.

His exhibits—Ottoman Post in Lebanon, Ottoman Post in the Lost Territories of Europe, Ottoman Post in the Arab Territories, and Ottoman Empire Prisoner of War Mail—earned top honors at philatelic exhibitions both nationally and internationally. Bob showcased his work at major international shows in London, Israel, Germany, and Turkey. At his final exhibition in London in 2022, he was awarded a Large Gold medal for Ottoman Post in Lebanon, a collection widely regarded as the finest of its kind.

Beyond these landmark exhibits, Bob also pursued specialized areas such as Missionary Mail in the Near East, American Naval Ship Mail from Turkey, and Postal History of the Steamship Companies within the Ottoman Empire, further reflecting the breadth of his scholarly and collecting interests.

Bob's profound love for Ottoman postal history fostered enduring friendships across continents, connecting him with fellow collectors and scholars around the world. He was deeply admired and respected by all who knew him, both for his generosity of spirit and his unwavering dedication to the field.

From the 1990s onward, Bob played a pivotal role in shaping and promoting Ottoman philately in the United States. He was the founder of the Ottoman and Near East Philatelic Society and served as its founding president until 2023, guiding its growth and fostering a vibrant community of enthusiasts and researchers.

Bob was also a member of several philatelic institutions, including the Royal Philatelic Society London, the American Philatelic Society, the Collectors Club of New York, Oriental Philatelic Association of London, and Society of Israel Philatelists, reflecting his broad engagement with the global philatelic community.

Describer's note - the following covers and lots are all referenced to the Coles & Walker catalogue "Part 2 - Lost territories in Africa and Asia", and to the extraordinary master-work, "Illustrated Ottoman - Turkish Postmarks 1840-1929" written and edited by Messrs. Ziya Ağaoğullari and Bülent Papuçcuoğlu. With my apologies to the gentlemen concerned, I have abbreviated this catalogue to just "Ziya" in the text. This International FIP Large Gold Medal Collection is offered here by Vilayet, largely in the order Bob Stuchell exhibited the collection. Gregory Todd AIEP, FRPSL.

2446	1842c.: Cover from Constantinople to Beirut with wreathed "AN JANIB I POSTA I BEYRUT 257" negative seal handstamp (On behalf of the Post of Beirut 1841) in blue-green ink (Coles & Walker fig. 1, Ziya fig. 1 - rated 'R') with gold dusted script above and framed 'Important correspondence' seal at right. *(Photo = 569)*		✉	**150**
2447	1842c.: Tartar Post form listing letters sent between Beirut and Harput, Turkey with wreathed "AN JANIB I POSTA I BEYRUT 257" negative seal handstamp struck well in blue-green ink (Coles & Walker fig. 1, Ziya fig. 1 - rated 'R') with equally fine "AN JANIB I POSTA I HARPUT 257" negative seal handstamp applied on arrival in deep blue (Ziya fig. 1 - rated 'RR'). Harput was largely an Armenian speaking town at this date. *(Photo = 569)*			**150**
2448	1859: Entire letter, internally dated, from to Damascus struck with fine upright strike of "AN JANIBI POSTAI / 257" (On behalf of the Post of 1841) negative seal handstamp (Coles & Walker fig. 2 / Ziya 2) in black. *(Photo = 569)*		✉	**120**

2450	1863: Turkey 20 pa. yellow, third printing, a fine example showing portion of adjoining stamp at left, used on May 13, 1864 cover from to Damascus tied by dotted "Battal" handstamp in blue. The ½ piastre rate cannot be easily explained as there is no mention of this rate in the Official Rate Schedule of 1863 except for Newspapers; however other examples have been recorded both in Lebanon and elsewhere in the Empire, usually on covers travelling short distances and it is possible that stamp shortages may have been the reason for the apparent under-franking. A fine and attractive cover. Signed A. Bolaffi. *(Photo = 569)*	1/IIIya	✉	**300**
2451	1863: Turkey 1 pi. grey-lilac, third printing, a fine example used on November 25, 1864 cover from to Damascus tied by fine unusually clear strike of the rectangular "Battal" handstamp in blue, with sender's cachet at lower left; paying the rate for 3 dirhems weight up to 50 route hours. A scarce and attractive cover. *Note: The Distances were calculated under the rate schedule of 1863 thus: Istanbul - = 374 route hours, less Istanbul - Damascus = 350 hours = 24 route hours to pay.* *(Photo = 569)*	2/IIIyb	✉	**200**

Daoud Pacha

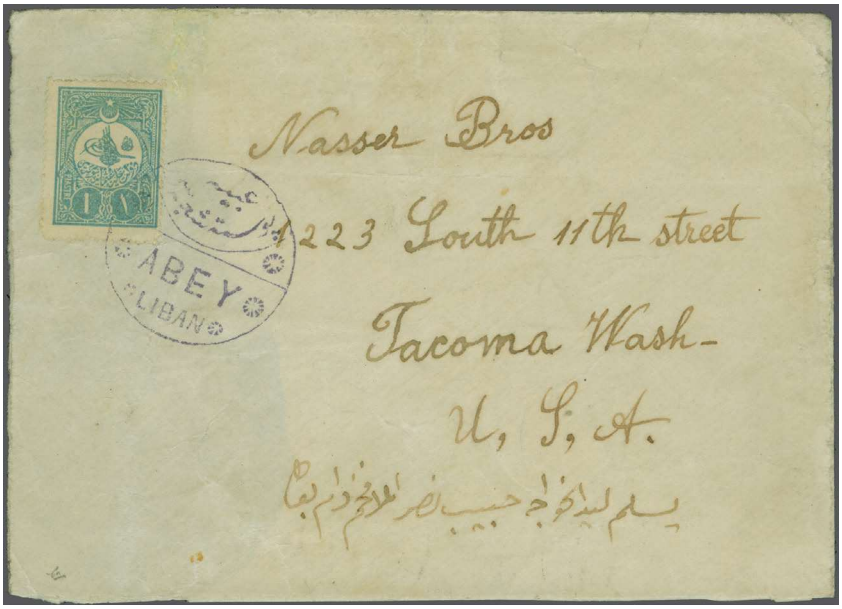

Michel — Start price in CHF

2529 **Mutasserifieh of Djebel Lubnan** 1861/62: Front and part back of cover to Zahle struck with "HUKUMATI POSTA CEBEL-I LUBNAN" negative seal handstamp (Post of the Governate of Mount Lebanon) in black (Coles & Walker fig. 43, Ziya fig. 1 - rated 'RRR'). An extremely rare cover with just three such known.
Note: In 1860 a Civil War between Druze and Christians in Lebanon caused the French to intercede and help restore order. They subsequently influenced the Sultan to establish the Mutasserifieh of Djebel Lubnan on May 10, 1861 as an autonomous region with a Christian governor reporting directly the Constantinople. The first Governor was Daoud Pacha who had been the Posts & Telegraphs Director in the capital. The seat of this Government was Deir el Kamar. A local post was started which probably only lasted until the introduction of Turkish postage stamps in late 1862. ✉ **850**
